WITNESS IN ATTACK CASE DISAPPEARS

Margaret Hendriques, 18-year-old San Francisco girl who accused Ernest H. Larson, 34, a tire shop operator of San Francisco, of an attack during an auto ride on the Skyline boulevard on October 18, has disappeared, and all efforts to locate her have failed, according to report from the office of Assistant District Attorney Anderson at Redwood City, who was to have conducted the preliminary hearing last Wednesday before Judge Ellis C. Johnson, in Daly City.

Miss Hendriques, the complaining witness, disappeared from her apartment at 1398 McAllister street, San Francisco, last Sunday, where she had been residing with her sister. The sister told Anderson that Sunday morning was the last time she had seen Margaret. It was also revealed at the same time that Wallace E. McIntosh, who resides at the same address as Miss Hendriques, the driver of the car in which the attack is alleged to have taken place, has also disappeared.

With the complaining witness not available, it was found necessary to continue the case to November 12.

Undersheriff Lawrence Neiri, of South aSn Francisco, who took Larsen into custody on Tuesday, October 20, after the asserted attack, asked the aid of the San Francisco police in locating the girl, who is thought to be in hiding with friends, Neiri said.

Miss Hendriques charged she was attacked in the presence of McIntosh, who is said to be married, and his woman companion, on their return from a party at Half Moon Bay.

McIntosh's statement to Assistant District Attorney Anderson was that he tried to stop Larsen, but that the other girl pleaded for the men not to fight, and that he drove at 60 miles an hour along the Skyline boulevard to "get to a police station."

MERCHANTS HOLD MONTHLY MEETING

The Daly City Merchants held their regular monthly meeting Wednesday night at Eagles' Hall, and re-elected incumbent officers for the ensuing term.

Mayor H. H. Smith made a report on the street widening project intended to eliminate the bottleneck.

It was decided to give a free dance in the city auditorium some time in December.

The following officers were reelected: President, A. Vireno; Vice-president, P. Pavlos; Secretary, W. H. Clay; Financial Secretary-Treasurer, J. J. Fahey; Sergeant-at-Arms, S. Plansky.

At the conclusion of the meeting refreshments were served.

KNIGHTS' PROGRAM A VERY BUSY ONE

Daly City Council No. 2712, K. of C., will have an active winter season of events worth while. Their communion at Epiphany church this Sunday morning, with breakfast following, is the first of a series that will run through to March, when the third anniversary of the Council will be celebrated.

Memorial exercises will take place on Sunday, November 22, at 4 P. M., in Eagles' Hall. Efforts are being made to secure a speaker of note for this occasion. Sylvester Andiano is the likely one.

A Christmas charity affair to be run jointly with the local Catholic Daughters will be announced soon, committees from both organizations having been appointed during the past week.

Each meeting during the months of November, December and January will be of a lively nature. Initiations, entertainment, educational talks, a smoker and features to stimulate activity over the holiday period will be sponsored.

MRS. MARGARET BURKE ANSWERS FINAL SUMMONS

Mrs. Margaret Burke, of Vista avenue, widow of the late John Burke, a former game warden of San Mateo county, passed away last Saturday, after an illness of several months. Her death came as a shock to her many friends and neighbors in the community where she was so well known.

Mrs. Burke leaves to mourn her early passing John E. and George P. Burke and Mrs. Margaret Martin, all well known in Daly City. The funeral services were conducted last Tuesday at 8:45 A. M., from the mortuary chapel of W. C. Lasswell & Co., thence to Our Lady of Perpetual Help church, where a requiem high mass was celebrated for the repose of her soul at 9 o'clock. Interment was in Holy Cross cemetery.

The sympathy of the community is being extended to the bereaved family.

GRAMMAR SCHOOL PUPILS CELEBRATE

On Friday last the R. S. Thornton school of Colma enjoyed the day by entering into the spirit of Hallowe'en with all its thrills. An air of mystery pervaded the school throughout the day and was sustained in the decorations and lighting. The party started with a parade of the children in weird costumes and masks, headed by the school band and the witch. A play, entitled "The School-room Imps," was on the program, as well as appropriate games, songs and dances. Ice cream, cake and candy finished a very happy day for the children, their parents and teachers.

On October 29, the Parent-Teachers' Association of the General Pershing school were hostesses of a delightful tea, which the teachers of the Crocker school attended. A most enjoyable afternoon was spent by all those present.

Volley ball, being one of the new activities of the Crocker school, has met with great enthusiasm. On Tuesday, November 3, the girls' team played the Woodrow Wilson school Score, Woodrow Wilson 2 games, Crocker 1 game. This is the second game of the season for the Crocker girls.

Friday, October 30, Lomita Park girls and boys met Woodrow Wilson boys and girls in three fast games each. The Woodrow Wilson girls were a little over confident and lost all three games to the Lomita Park girls.

In the boys' games the Lomita Park boys succeeded in wininng one game only, with a score of 21 to 19. The Woodrow Wilson boys won the other two with scores of 21 to 10 and 21 to 16.

The Crocker unlimited team and Wilson 110 pound team played a tie game of speed ball, the score being 5 to 5. It took two extra quearters to decide the game, the final score being 8 to 5 in favor of Woodrow Wilson.

The 100 pound Loydie's team of Woodrow Wilson played Crocker's 100 pound team and won. Score, 3 to 0.

Tuesday, Colma volley ball team played their first game and lost to Woodrow Wilson.

The children of the Vista Grande school are saluting the flag on sunny days outside the school building. In a very short time they hope to have it done in perfect unison.

The General Pershing school was 100 per cent at the San Mateo Teachers' Association dinner given in Redwood City on Wednesday, October 28.

The children of the Pershing school participated in a Hallowe'en party given by the teachers on Friday afternoon. Games and candy suitable for the occasion were enjoyed by all.

SURPRISE DINNER PARTY IN HONOR OF BIRTHDAY

Mrs. Ernest Bradford was hostess at a surprise dinner party on Wednesday night of last week at her home, at 21 Gambetta street, in honor of her husband's birthday. The guests arrived before Mr. Bradford got home and it truly was a surprise, as he had no idea of any party being planned in his honor. The table was very beautiful, the decorations being Hallowe'en colorings. Everyone had a good time, and Mr. Bradford received many beautiful gifts. Those present were Mr. and Mrs. Ollsworth, of San Mateo; Mr. and Mrs. Edward Murry, Edward Murry, Jr., Mr. Samuel Pearson; Mr. Tucker, Miss S. Hegnoot and Mrs. F. McGuire, San Francisco; Miss Bernice Bradford, Miss Violet Bradford, Master Robert Bradford, Master Ernest Bradford, and Mr. and Mrs. Ernest Braford.

TENDERED BIRTHDAY DINNER

Messrs. Leslie Powers and Harold White were honored with a birthday dinner at Kelly's Tavern, October 29, given by Mrs. Mary White. The table was artistically decorated in Hallowe'en colors, with a huge cake in the center with "To Our Boys" in big letters across the top. Those who had the pleasure of attending this dinner were Mr. and Mrs. Cinnamond, of Oakland, Mr. and Mrs. Emerson Barr, of Visitacion Valley, Mr. and Mrs. Oscar White, Mr. and Mrs. Leslie Powers, Mrs. J. Sweeney, of San Francisco, Mr. Harold White and Mr. and Mrs. Walter White, of Daly City.

ENTERTAINS AUXILIARY OF HORTICULTURAL SOCIETY

Members of the Ladies' Auxiliary of the Pacific Coast Horticultural Society were entertained at luncheon, October 27, at the home of Mrs. B. E. Myer, of 953 Brunswick street. The following ladies were present: Mrs. A. J. Rossi, Mrs. H. Plath, Miss Gladys Plath, Mrs. V. Podesta and Mrs. J. Morgan, of San Francisco; Mrs. H. Kemph, of Lawndale; Mrs. Carboni and Mrs. J. Gill, of Berkeley; Mrs. Lahrman, of San Rafael.

LEGION TO ATTEND ARMISTICE DANCE

The members of Daly City Post No. 410, American Legion, will hold their Armistice day celebration by attending the dance next Tuesday evening (Armistice eve) in the Daly City Auditorium, given by the members of the Auxiliary. The ladies have engaged a local union orchestra, and from all indications their dance will be a pronounced success. Let's all make the auditorium our meeting place next Tuesday evening, and between dances we'll find time to fight the war all over again. Bring your friends. A good time is assured.

Next Sunday morning the Legion members will be able to resume their horseshoe games at the Daly City park. Due to the grading work in progress at the park, it was found necessary to postpone practicing for the last two weeks. There are rumors around in other camps that the Legionaires have a lot to learn in the line of hoseshoe hurling. What do you say, Henry?

Daly City Post No. 410 will hold its next meeting Friday evening, November 13. Bring along that new member. Now is the time.

NOVEMBER 11

The first cold light of a November day sifted through the branches of the Forest of Compiegne. In the dining car of a train standing in the center of the forest six men signed their names to a crisply phrased document: "F. Foch, R. E. Wemyss, Erzberger, A. Oberndorff, Winterfeldt, Von Salow."

The first clause of the document and the one which immediately threw the world into wild rejoicing, read:

"Cessation of operations by land and in the air six hours after the signature of this armistice."

Peace! That was the meaning of those signatures written at 5 o'clock in the morning in the Forest of Compeigne. Peace with Victory! Six hours later, at 11 o'clock, peace came.

Thirteen years have dimmed the ink of the Armistice signatures, but they have not dimmed the ideals of the American men and women who served to make peace and victory possible. United in the American Legion and the American Legion Auxiliary, they are still serving to make true the joyous promise of November 11th.

SCHOOL CHILDREN TO ATTEND ARMISTICE DAY SERVICES

The Longfellow school children attending the Armistice day services in the Civic Auditorium, Wednesday, November 11, will be met at the school by members of the Parent-Teachers' Association at 12 A. M., who will accompany them to the auditorium. The services will commence at 1:15 P. M.

Longfellow P. T. A. has enrolled for rating as a standard association, and officers, chairmen and members are co-operating in every phase of the work in order to realize this ambition. The following members attend study group classes: Mental hygiene, Mrs. Charles Verbrugge, Mrs. D. J. Irwin, Mrs. Clyde Reed, Mrs. M. K. Kallo, Mrs. Josephine Buski. Mrs. A. D. Giannini and Mrs. Lawrence Fosberg attend public speaking. The Parental Education class is attended by Mrs. Giannini, who is the study group chairman of Longfellow.

RACING BEGINS AT TANFORAN TRACK

Winners on opening day at Tanforan will not come exclusively from either the East or the West. That's the way the racing fans are talking immediately prior to the first afternoon's sport this Friday. Trainers of the home band are confident of success on account of the thorough conditioning to which their thoroughbreds have been subjected in the last few days. On the other hand close critics of the pastime are saying the Easterners will do some fast running despite the long train from Illinois and other states on the other side of the Rockies.

Many of the work watchers are enthusiastic about the chances of the Pasadena Stable's probable candidates for the Inaugural handicap. Trainer Lester Lee has Schooner, Hand to Hand, Bud Broom and Clarabel A and other fleet ones from which to select his starters in the big feature. It may be that H. W. Hoag of the J. W. Marchbank establishment will have such a shifty three year old as De Swasey or Mopeco in the event. These horses have been here several weeks.

The gallops of the stakes winner Alexander Pantages are attracting as much attention as those of any horse at the course. Trainer Bill Finnegan does not seem to have any misgivings about the fast and staying son of Bon Homme and Peggy Martin being as good as at any time in his life. It will be recalled that "Alex" won several of the stakes at the meeting in the spring, defeating such a good horse as Plucky Play.

Of the "invaders" Reichert Brothers Brown Wisdom and My Dandy "stand out." They have been here since last Friday so should have recovered almost completely from their three thousand mile trek from Chicago. It is likely Brown Wisdom will be chosen for the Inaugural, which is at one mile and seventy yards, with My Dandy going in the San Bruni Handicap at six furlongs on the second day of the meet. Bruce Johnson's Lamp Black, a winner at Hawthorne in good company last Friday, is an old favorite at Tanforan and is likely to have a large following in the event he gets to the post on one of the early days at San Bruno. This black fellow and about ninety-nine others came in on the Hawthorne special early last Wednesday morning.

Bert Baroni has nominated the California bred Nifty and the Nevada bred Prince Volta to the San Bruno handicap, a gallop of six furlongs with $5,000 added.

SURPRISE BIRTHDAY PARTY

A group of friends laden with good things to eat and lovely gifts gathered at the home of Mrs. I. Roberts, of Winchester street, Thursday evening of last week. A very pleasant evening at whist was spent, after the honored guest had recovered from the shock of the surprise. Mrs. Roberts' admiring friends presented her a lovely fern stand. Little Mildred Newton presented her a beautiful basket of flowers for the table decoration. At a late hour delicious refreshments were enjoyed by the following guests: Mrs. B. MacCarthy, Mrs. E. C. Boyle, Mrs. H. Peck, Mrs. J. Johnson, Mrs. A. Yates, Mrs. J. Swan, Mrs. Joy, Mrs. Rogers, Mrs. Newton and Mrs. R. RacNally.

JEFFERSON UNION HIGH SCHOOL NEWS

One of the most important phases of the present-day high school education is instruction in effective ways in which to use the vast amount of knowledge to be found in sources other than the ordinary textbook. Investigation shows that 75 per cent of the students entering high school are unfamiliar with such common reference books as the dictionary or encyclopedia, and have only a faint idea as to the purpose of a classified index. It is natural then, with such a lack of information that freshman students—and those in higher grades as well—are bewildered when required or advised to do reading in other books besides the regular textbook. Furthermore, when students are taught the value, the usefulness and the joy to be derived from the vast amount of material at our libraries, their education becomes a far more interesting and vital process than it sometimes otherwise appears to them.

In light of this need, as existing in our high school, Mr. Ferguson has made arrangements with Miss Gibbins, the librarian, to give instruction to all of the students in the use of all general refrence books. Miss Gibbins has planned this work so that she gives the course of instruction in the different English classes, thereby meeting all students. These students have not only shown interest in and enthusiasm for the course, but also have expressed frequent opinions that such instruction will be very helpful in the study of any subject.

It is the hope of Mr. Ferguson and Miss Gibbins that such instruction as this course affords will raise the scholarship standard of our students, will vitalize school work for them, and will make of our school library what it should be—the center of our scholastic life.

The official football season for Jefferson closed with the game between San Francisco Continuation school and Jefferson on Friday last. Coach Biaggini has already collected all equipment and stored it away until spring practice begins.

The next sport on the program is baseball, which will begin with the new semester. In the meantime physical education activities will be in the minor sports, such as tennis, handball, basketball and horse shoe pitching. During wet weather the classes will occupy the Senior Hall.

As Jefferson grows, the need of a gymnasium becomes more and more pressing. Even under the most favorable conditions, the present facilities are inadequate. Neither the boys' nor the girls' showers furnish half the needed space for the number of pupils enrolled. Nor is it possible to provide for corrective exercises for any of the pupils needing such work.

The Senior class is exerting itself to the limit in trying to raise enough money to publish an annual this year. The publication of the annual was discontinued two years ago on account of the cost and the doubt in the minds of the faculty and trustees regarding the educational results obtained. The seniors hope to show that the annual can be adequately financed without working a hardship on anyone.

Next week the public schools throughout the United States hold open house for the parents of the pupils. The purpose is to have the parents get better acquainted with the schools and to encourage closer cooperation between the home and the school in the interests of the children. Jefferson High will be glad to welcome parents in all of the classes during the entire week.

Next Saturday there will be a meeting of the school trustees of San Mateo county in Judge Swarts' chambers in the county court house, Redwood City. Jefferson High will be represented by Trustee Truman Bentley and Principal James Ferguson. County Superintendent Pansy J. Abbott will be in charge of the meeting and promises an interesting and profitable program.

Jamie Lagomarsino, the high school gardener, is busy trimming up the flowering plants on the grounds and making new plantings as additions to the landscape. This adds greatly to the attractiveness of the high school grounds, which are already receiving many compliments from visitors and the public in general.

TAX COLLECTOR DUE IN PENINSULA TOWNS

The first installment of 1931-1932 county taxes are due and payable this month, County Tax Collector Ambrose McSweeney has announced.

McSweeney will begin making the Daly City collections November 12. The first half taxes will fall delinquent December 5, after which a penalty of 10 per cent will be added.

HOSPITAL PLAN HEARD BY BOARD

The San Mateo county board of supervisors, in regular session last Monday, took under advisement a plan whereby ambulance and hospital service would be provided victims of highway accidents. The plan was submitted by private hospitals of San Mateo county, through Dr. Edwin I. Bartlett, of South San Francisco.

Representatives of the hospitals declared that the minimum prices were being asked for a twenty-four hour hospital service. Any agreement that might be reached would be in force until such time as the county was able to handle its own emergency cases.

In a letter to the board, Charles D. Mellon, of Clemens, N. J., called attention to the failure of the San Mateo Bridge Company to meet inteerst on bonds. Mellon, an individual bond holder, asked the board to pay the interest due him. According to information issued by the bridge company, a committee has been formed to protect the bondholders. Mellon's communication was filed without comment.

A demand that the Woodside road be reconditioned and widened was filed by residents along the road.

The board voted $1,000 to be used in establishing stations where itinerants will be fed and sheltered.

Surveyor James was instructed to ascertain the total cost of securing the rights-of-way for the widening of the La Honda road. Rebuilding a mile and a quarter of the road from the Skyline down would cost about $36,000, the surveyor reported.

Action on the proposal to amalgamate the Fifth judicial district and the Fifth supervisorial district was postponed for two weeks.

The imposition of a $1.75 tax on the Half Moon Bay district was protested by Supervisor Manuel Francis. He contended that a tax of 75 cents would be sufficient.

Permission to abandon eight streets in Millbrae Villa was granted the West Coast Porcelain Manufacturers.

Roy N. Bishop, chairman of the county planning commission, was named to represent San Mateo at the convention of city and county planners, to be held next year in Los Angeles.

A protest against coastside hog ranches was registered by the Coastside Civic Union. The matter was laid over, owing to the absence of Supervisor Thomas L. Hickey, in whose district the ranches are located.

The board ruled that all road fund claims must be filed on Thursday before the second meeting of the month. Claims filed later will not be paid until the following month.

ENTERTAINS YOUNG FOLKS AT A HALLOWE'EN PARTY

Last Saturday afternoon Mrs. Lorraine Wall, assisted by Misses Marge and Tessie O'Cononr, entertained Miss Alice Johnson and nine of her friends at a Hallowe'en party at her home. The afternoon was spent in playing games, after which the guests adjourned to the dining room, where dainty refreshments were served. The refreshments, place cards, decorations, etc., were in keeping with the Hallowe'en spirit, the color scheme being black and orange. Little Miss Johnson is the foster daughter of Mrs. H. O'Connor, of Evergreen avenue. Those having a delightful afternoon were: Joan Tway, Kathleen Core, Joyce Monohan, Jack Lewis, Dorothy Lewis, Barbara Monetta, Jerry Barton, Lois Wilson, Allan Barton and Alice Johnson. In the evening all the guests at Miss Johnson's party enjoyed a taffy pull, at the home of Miss Joyce Monohan, on Alexander street.

SAN MATEO COUNTY CHAPTER RED CROSS 15TH ROLL CALL

The San Mateo County Chapter, American Red Cross, is holding its annual roll call, from November 11 to November 26, and asks your fullest co-operation.

The following will call for your membership and donations: Mrs. H. W. A. Rickman, Mrs. E. H. Jordan, Mrs. E. C. Boyle, Mrs. C. H. Brown, Mrs. A. S. Pangburn, Mrs. J. D. O'Brien, Mrs. G. I. Woodside.

SERMON ON THE MOUNT

Continuing a series of sermons on "The Beatitudes," Rev. John R. Stevenson will speak Sunday morning at 11 o'clock on the text, "Blessed are they which are persecuted for righteousness sake." The theme for this series of sermons is "How to be happy though a Christian." The pastor has endeavored to show during the past Sunday mornings that the only real happiness is Christian happiness. In the evening the the theme will be "The fruit of the Spirit." This will be an illustrated address in chalk paper. The evening service will be at 7:45.

ODDS AND ENDS OF THE WEEK'S NEWS

Verification and settlement of the transcript of the James L. Flood will contest trial has been postponed until Thursday, December 3, by Judge Buck. The delay was granted on the motion of attorneys for the Floods. There are five volumes of the transcript, each containing thousands of pages of typewritten words.

Redwood City councilmen have been informed by the city engineer that the proposed extension of Rogers street would cost $25,000 for a 60 foot roadway. A 40 foot roadway would cost $18,000, the engineer said.

Edward A. Groves, of Burlingame, is suffering from a skull fracture as a result of an automobile collision, a few days ago, which occurred between Salinas and Monterey.

Harold W. Brann has been made defendant in Redwood City superior court in three damage actions totaling more than $30,000, as the result of an automobile crash on Willow road, September 12.

A new ruling for dance permits is in effect at San Bruno. Under the new ruling sponsors of dances that are planned to continue until 1 o'clock must pay an additional fee for the services of an extra police officer for the hour from 12 to 1 o'clock.

The Bear Gulch Water Company, serving Menlo Park, Atherton and Woodside, has applied to the railroad commission for authority to issue $650,000 in face value of first mortgage, 6 per cent, twenty year gold bonds, to be secured by a general deed of trust upon the applicant's property.

Mrs. Esther Berg, of Santa Rosa, has filed suit at Redwood City for $25,000 damages for the death of her son, Charles D. Berg, whose automobile crashed into a parked machine on the Junipero Serra boulevard, opposite the Lake Merced golf course, on November 4, 1930. The defendant is Leonard Shaul, of San Francisco.

A spiked horn buck and three quail, shot out of season, Friday of last week, cost Joe Perazzi $150 following his appearance before Justice Jackson in Redwood City. Perazzi was arrested in the Alpine district with the buck and quail in his possession.

Arthur Gillette, a San Francisco policeman, was seriously hurt, and B. Ogrodiczek, San Carlos wondow washer, suffered slight injuries when a truck driven by Gillette overturned in San Carlos after a collision with Ogrodnicek's auto.

Jewelry, clothing and other articles valued at $2,500 were stolen from the residence of Joseph Zinino, of Montary, Wednesday night of last week. The Zinino family had all the household articles packed preparatory to moving to Moss Beach.

One of the first suits resulting from an airplane crash was decided last week in Judge Farrell's court in South San Francisco, when Dana Thompson, Jr., of the San Francisco Airport, won a judgment for $300 and costs from Joseph Decetis, of Sacramento. Decitis' plane crashed into the tail of Thompson's plane after it had discharged a passenger at the airport and was taking off again.

Support of any movement that will save the Butano Forest for a state park and recreational center was asked of the San Mateo County Federation of Improvement Clubs and Associations by B. L. Werder, county fire warden, at a meeting in Daly City last week.

James P. Coleman, former chief of police of Redwood City, dropped dead while walking from the Southern Pacific depot to his home on Balboa avenue in Burlingame Monday morning. Death was due to a heart attack from which he had been a sufferer for some time.

Albert Castro, South San Francisco hotel man, pleaded guilty to violation of the Federal prohibition law and was fined $100 by Judge Edward Farrell, of South San Francisco, last Monday.

Police investigating a charge of battery at the home of Tom Klavo, Menlo Park, discovered 1,500 gallons of wine hidden on the place. They seized the wine and arrested Klavo on a charge of possession.

Two San Francisco youngsters who, according to police, stole an automobile belonging to Charles Gilerdi, of South San Francisco, while it was parked on West lane, are in the custody of San Mateo county juvenile authorities.

GENERAL PERSHING P. T. A. HAS INTERESTING MEETING

The members of the General Pershing Parent-Teachers' Association held their regular meeting in the General Pershing school on November 3.

Mrs. Boyle, the president, thanked the chairman of the floral parade for the beautiful costumes and the floats, also the banner, that was so well applauded as the children marched by.

Plans for extending the time of the Dental clinic were discussed, also the co-operation of the members was urged in the plan to raise a fund to help the unemployed in Daly City.

Mrs. Cohn was appointed chairman for the tea to be held in the school on November 18.

The funds derived from the turkey whist to be held in the Crocker club rooms on the eve of November 14 are to be used for a Christmas party to be given in the school some time before the holidays.

Miss Pansy Jewett Abbott, county superintendent of schools, was the speaker of the day. Miss Abbott aroused the members to new enthusiasm by her talk on co-operation between the home and the school.

Mr. Crane, Daly City school superintendent was unable at this time to give the long address he had planned on, but he gave the members his usual encouragement.

There were four new members enrolled at this meeting. Tea and cup cakes were served by the committee in charge.

LONGFELLOW TRAFFIC BOYS TAKE PART IN PARADE

The traffic boys of the Longfellow school have been drilling under the direction of Officer Charles Ogden for the parade today, Friday, November 6, and will march in the annual review at the Civic Auditorium, San Francisco, at 1:30 P. M. Mrs. Fred Keiser, safety chairman of the Longfellow P. T. A., is in charge of the boys and will accompany them today. Additional new caps, arm bands and neckties were purchased by the unit, as seven boys have been added to the squad, making a total of twenty-eight this term.

TAX RATE OPPONENTS THREATEN COURT ACTION

Court action to determine the validity of San Mateo county's 1931 tax rate was believed certain Thursday, when it was revealed that nearly all the large taxpayers had served notice on Tax Collector Ambrose McSweeney that they would pay their taxes this year under protests.

Their action was interpreted in Redwood City as indicating that the tax rate will be tested on the strength of an opinion from the attorney general's office.

The attoreny general's ruling held that a special levy of five cents for the La Honda road reconstruction illegally imposed. The ruling said that the levy should have been a part of the general fund levy, and not a separate item. As a result two other levies, two and one-tenth cents for the Sunnyvale air base and six and three tenth cents for the Memorial Park road, were cast into the shadow of doubt.

District Attorney Edmund Scott said in view of the attorney general's opinion the legality of all three was highly questionable. He added there was nothing dishonest about them, but the manner in which they were imposed made them questionable. He said the board had been proceeding in the same manner for years, but no question ever had been raised before. He added that the court would have to determine, and indicated that it would be advisable to have the matter settled once and for all.

INTERESTING NOTES

Nearly one hundred motion picture theatres in Central America are now equipped to reproduce sound films.

There are estimated to be 10,000 Americans living in China, of whom nearly one-half are missionaries and their families.

Founded by Spaniards in 1519, Panama City claims to be the oldest white settlement in the Americas.

Approximately 3,750,000,000 pennies are minted each year by the United States Treasury Department.

Mr. Craster of New Jersey renews the old propaganda about the dangers of kissing. There are dangers, of course—one of which, in certain cases, is that of being caught at it.

The world's tallest ferns exist in the Hawaiian Islands, where they grow to a height of 30 to 40 feet.

Of the 30,000,000 radio receiving sets in use in the world, 10,000,000 are in American homes.

Charging that a nasal injury which caused her to snore was the result of a street car accident, Mrs. Ruby O'Connor of San Francisco is suing the municipal street car line for $10,192.

A bequest of $5 to each of his six children for the specific purpose of buying a bible was made in the will of Simon Huffer of Circleville, O.

By the interception of 8 letters, written with lemon juice, the warden of the State Penitentiary, Salt Lake City, was enabled to frustrate a plot to free 21 prisoners.

Bandits who held up Lawrence Keenan at Pittsburgh, Pa., left him with nothing but his socks.

When Mrs. Sophia Roehmer of Buffalo, N. Y., became seriously ill from worry because her pet dog strayed away, 1,100 policemen made a city-wide search for the animal.

Mrs. C. H. Lyons of St. Louis testified in her divorce suit that her husband deserted her because he was lonely when she went to work to support him and herself.

After being hurt three times in auto smashups, George Kedize of Palatine, Ill., sold his motor car and now walks three miles to the railroad station.

Fred Herron, of Montclair, N. J., was badly stung by a wasp that entered an open window and hid in his hair brush.

Because he called his father a "fool" John Marran of Shirley, England, lost a heritage of $40,000 when his father died.

Until their divorce suits are settled, George F. Bicknell and his wife of Gary, Ind., must not speak to each other.

When a pretty girl of Holloywood, Calif., was asked her name by a filling station attendant, she replied "I'm Miss Wienie Hottdoeg and I feel like a cannibal whenever I eat a frankfurter."

Frank Dorsett, 88-year-old Civil War veteran, has married Mrs. Mollie Jones, 69, in Huron, Ind.,

Mr. and Mrs, Norville Williams, 86, of Chicago, who were divorced 34 years ago, have just been remarried.

TRIAL OF YEARLINGS AT HEATHER FARM

Friends of John W. Marchbank went to Heather Farm Sunday to share with him the joy of witnessing the trials of his yearlings. For some years thoroughbreds with the ability to win on the most important courses of the country, at any distance horses are asked to go these days, have been reared here, and after viewing critically this latest band at the beautiful nursery it is easy to predict the reputation of the Marchbank place will be enhanced when these youngsters get into action.

The twelve babies are sons and daughters of the English War Cry and the home bred King Heather. All are of the most pleasing conformation and of racing lines. Both are successful stallions, both through the performance of their own progeny and through the notable triumphs of the offspring of their daughters.

In the hills beyond the track on which the trials were held were fashionably bred brood mares, dams of the yearlings. Rich feed and an abundance of water, containing a sufficient amount of the lime which is so necessary in the formation of bone in a thoroughbred, account for the condition of the mares that makes them so valuable.

The blood of Isonomy, Rock Sand, Ormonde, Hanover and Blackblock courses in the veins of the matrons, and as a critic of wide experience in breeding remarked:

"In all my travels I have never seen a higher class band."

A "Braw Scot" of a black fellow, by King Heather from Lady Julian, was the "pick" of most of the observers of the tests. He is a handsome individual and demonstrated that he has a high turn of speed, as well as the racing instinct without which no galloper can achieve fame on the hace track. The yearlings are as follows:

Lady Julian, Little Spider, Miss Cook, Lovelace, Angie Mack, Bit o' Blarney, Little Kid Carroll, Princess Nadette, Susan M, Eva Ackley, Monardella, Snooksie Bradley.

The "Snooksie" miss was much admired and looks all over to be a runner.

Dance with the Legion Auxiliary, November 10, at the City Hall.

BAZAAR IN GRACE CHURCH

Friday, the thirteenth of November, is the date chosen by the Ladies' Aid of Grace Presbyterian church for their annual bazaar. The sale of work and other desirable things will go on all day, and in the evening at 8 will close with an attractive entertainment.

REDWOOD CHIEF NABS SPEEDY RUM RUNNERS

Two automobiles loaded with liquor and headed for San Francisco might have reached their destination on Wednesday night of last week had not the drivers been in too much of a hurry to get through Redwood City, where Chief "Mickey" Collins runs a very inquisitive police department. As a result of the haste, the drivers were landed in jail and the police had some 355 gallons of alcohol.

Redwood City police spotted two cars speeding along the highway and took after them to give the drivers tickets for speeding. A closer examination, however, revealed that both cars were loaded with five-gallon cans of alcohol, the police said.

The drivers, Frank Beancalana and Emilio Spense, who gave their addresses as San Francisco, were lodged in the county jaial on charges of speeding, illegal possession and transportation of liquor.

Dance with the Legion Auxiliary, November 10, at the City Hall.

In view of all the worry over surplus crops, perhaps agricultural experts should teach farmers how to raise less stuff.

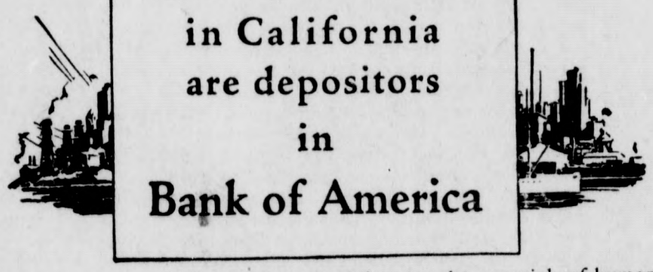
BUILDERS OF CALIFORNIA

ALL of the 10 LARGEST CORPORATIONS in California are depositors in Bank of America



DOWN THROUGH the ages, the essentials of human life have not changed. In supplying these basic human needs, the world has developed its greatest and strongest industries.

California's ten largest corporations are leaders in such essential industries. They have huge assets, employ thousands of people. Through able management, they have accumulated ample reserves for times of stress.

Who could be better qualified than the heads of these great business organizations, to judge the soundness and service of a bank?

Every one of these ten largest corporations is a depositor in Bank of America. Their selection of this Bank confirms the judgment of business leaders in this and *every* California community.

At any Bank of America branch, your funds will have the same safeguards recognized by the men who manage California's largest companies. Your account—large or small, savings or commercial—will join here with those of the greatest business organizations in this state.

CALIFORNIA NEWS REVIEW

Dr. David Segal of Long Beach, Cal., has been appointed by Secretary Wilbur as specialist in educational tests and measurements in the research and investigation division of the office of education.

Sacramento's Commuity Chest went over the top, passing its $226,139 goal. W. B. Jenkins, manager-director of the local charity organization, said contributions, despite the depression, were the largest in the last decade.

Indicating an unprecedented demand for employment, more than 3000 applications for civil service positions in the state government were received during the last month, it was reported by William Brownrig, chief of the division of personnel.

The Shasta-Cascade Wonderland Association, Inc., met at Redding recently with 200 members present, and elected E. B. Hall of Klamath Falls, Or., president of the organization, which was formed to boost the scenic beauties of the Mt. Shasta and Cascade Mountain district.

Health conditions during the past year broke all records in Pasadena's history, City Health Officer Dunshee announced recently. Scores of 100 per cent were registered in exacting government tests in all four departments of sanitation, water supply, health inspections, sewage disposal and garbage collections. A large reduction in communicable diseases was reported.

Federal aid has been promised by Commissioner of Immigration Harry Hull in solving California's long series of Hindu murders and ridding the State of Hindus who have entered America illegally. Clarence S. Morrill, chief of the State Bureau of Criminal Identification, so announced upon return from conferences with immigration authorities at Washington, D. C.

Fifteen men, officers and crew of the San Francisco lumber freighter Wilmington were rescued at sea in a recent storm off the Mendocino coast after the vessel became waterlogged. The rescue was accomplished by the crew of the steamer Admiral Sebree at Blunt's Reef, 200 miles north of San Francisco. The Admiral Sebree took the Wilmington in tow.

A homecoming for Herbert Hoover in conjunction with the Shrine convention to be held in San Francisco next July was being planned by Potentate William H. Woodfield Jr., director-general of the 1932 Shrine convention. Appointment of a committee of State and municipal officials, civic leaders and representatives of fraternal organizations and women's clubs to join in extending the formal invitation to the President will be made by Woodfield.

Gov. Rolph announced organization of the tax research bureau authorized by the 1931 Legislature will begin shortly. The Governor said he has conferred with Russell L. Wolden, president of the County Assessor's Association, relative to preliminary details. Wolden was quoted by the Governor as saying he believed State finances to be sound and that the bureau should devote itself to a study of local taxation, particularly taxes levied for support of school, bridge, water and other districts.

Sinking has been resumed at the great Argonaut mine near Jackson, one of the deepest gold producers in North America. An auxiliary has been started from the 5800-foot level of the main shaft and will be sent to a depth of 6100 feet from surface. The management reports that a massive ore body uncovered recently on the 5700-foot level has been developed for 250 feet and ranges from 10 to 14 feet in width. The Argonaut has ranked among the leading gold producers of California for more than 50 years, and is reported to be turning out more than $100,000 monthly.

California's most unpopular farm crop—weeds—cost about $50,000,000 a year, Dudley Moulton, director of agriture, estimated. Because of this enormous annual loss he declared weed control would play an important part in the work of his department. A survey recently revealed the puncture vine, outstanding weed menace, has been found in 44 counties, covering 690,000 acres, since first found in the State in 1903. Moulton said his department would assist counties in developing better methods of puncture-vine control. Not only do weeds harbor insect pests and plant diseases. Moulton explained, but are responsible for damage due to fires, dockage on products shipped, decreased land and crop values, soil moisture, obstructions to irrigation systems, and higher harvesting and threshing costs.

The gypsies are going modern. Incorporation papers for the Romany Brotherhood Inc., organized to "preserve the traditions, literature and songs of ancient Romany," were filed recently with Secretary of State Frank C. Jordan by Z. Adams of Stockton, said to be the ruling Romany chief in California.

C .C. Alien, government frost observer, will again maintain headquarters at Lindsay this year. This service is regarded as very valuable to the citrus growers of the entire county.

The offices of the California Cotton Co-operative Association, after nearly two months of court battles to keep them at Delano, have been moved to Bakersfield.

The Imperial Valley grapefruit growers plan to build a $20,000 packing plant this year. It is said that the harvesting of grapefruit will be held back this season to insure better ripening.

There were 133,885 automobiles from other states scooting up and down California highways from January 1 to October 1, this year. The number was more than 12,000 in excess of those arriving in the same period last year, and the number of persons carried increased from 264,506 in the 1930 period to 323,443 this year. The figures are given in the monthly report of the State Department of Industrial Relations to emphasize the importance of the auto camp inspection.

Dismissal in Federal court at San Francisco of a suit seeking to enjoin an Interstate Commerce Commission ruling governing railroad charges on shipments of dairy products in refrigerator cars assures western dairy and poultry producers of a rate saving they have estimated at $150,000 annually. The action was brought by the Alton and Southern Railroad and sought to enjoin the commission's order substituting a "cost of ice basis" for shipment charges instead of the former "fixed charge."

Danger from the introduction of muskrats into streams of the State has been brought out by T. I.Storer, professor of zoology at the University of California, who is investigating reports that muskrats have been seen on streams of the upper Sacramento watershed. Muskrats have caused heavy damage in the levees and banks of the Imperial Valley Irrigation System and it is feared that where the Sacramento river is held in by levees and in the Delta District this might happen. Storer says "Steps should be taken to curb the introduction of alien animals into the State by individuals."

Hikers from 19 states and England, Japan, Germany, France, Palestine, and Scotland climbed the highest peak in the United States during the past season, according to reports to the touring bureau of the Automobile Club of Southern California. This is Mount Whitney, in the High Sierra of California, 14,496 feet above sea level. There were 791 visitors "saw how the world is made" from this cloud-scraping elevation. Trails from both the east and west sides of the summit were completed last year, making it possible to ride horses to the summit. Travel increased 62 per cent this season as the result of the trail opening.

Tuberculosis is entirely absent from dairy cattle in the Livermore Valley, according to the report of Dr. B. B. White, field veterinarian of the State Department of Agriculture, who has completed tests of every cow in the district producing milk for human consumption. The tests were made by White, assisted by Dr. N. E. Clemens of Hayward, city milk inspector for Livermore, and Dr. Paul E. Dolan, city health officer. More than 300 cows were tested and not one of them showed the slightest reaction. Freedom from tuberculosis is declared to be the result of careful elimination of all suspected cows from Livermore Valley herds during the past 18 months, during which all dairies have been required to operate under stringent sanitary conditions. Livermore was recently designated as a Grade A district, the highest rating that can be given for raw market milk.

Seven of the greatest educational minds of the United States will act as the jury to pass on the evidence and findings of the experts of the Carnegie Foundation in their survey of California's higher educational problem, it was announced by Dr. Henry Suzzallo of New York in charge of the survey. Dr. Suzzallo's announcement was made at a conference with State educators, including junior and teachers' college presidents; Dr. Robert Sproul, president of the University of California; Dr. Ernest C. Moore, director of the University of California at Los Angeles; C. L. McLane of Fresno, president of the State Board of Education, and Vierling Kersey, State Director of Education. The purpose of the preliminary conferences, Dr. Suzzallo explained is to give him a complete picture of California's higher education problems as a foundation on which to work. "The present situation," said Dr. Sproul, "is not satisfactory, but how to make it satisfactory is the question we must solve. The major issues are, to how many are we going to give higher education, in which way is to be given, and in how many places? Whatever plan is decided on, it should be such as to afford first class education. A shoddy education is something of which California is not worthy." Roland A. Vandegrift, State Director of Finance, briefly presented to the conference the financial problem of the State as it affects education.

The nursery industry in California represents a very large investment, being estimated as more than $20,000,000. Sales of nursery products approximate $12,000,000 yearly. Nurserymen who supply citrus budded root stock use a million and a half buds each year. Deciduous fruit trees and ornamentals are equally important.

Mrs. J. G. Thomas, Tulare, reports that her cereus, night blooming cactus plant, has already blossomed three times this year, instead of the customary single annual blossom.

Talking It Over after the Flight

Training Our "War" Eagles

By GEORGE BECK

THE young man with a strong urge to become an aviator and who has the time to learn the science of flying in a thorough manner, can do no better than to apply to Uncle Sam who operates the finest aviation schools in the country.

At fifteen army fields throughout the United States, Uncle Sam has enrolled at present over 5,000 reserve fliers whose training expenses far exceed, per man, the cost in any other branch of service. For the privileges extended the reserve flier, the value of the training he gets, the good times he has, all that Uncle Sam requires in return is an intelligent, industrious young man between the ages of twenty and twenty-seven who has had at least two year's college education and who has the makings of a flier in him.

In an exclusive interview the writer had for this article with Captain Frank M. Hawks, just returned from a spectacular tour of Europe in his speedy Lockheed-Vega, the Texaco 13, Hawks declared there was an urgent need for more and better trained pilots in this country.

The finer designing of planes, he said, and the necessary continued study of aeronautical science generally, particularly with respect to training of airmen, holds the future of aviation in this country.

Hawks firmly believes in the coming of high-speed planes for commercial use, for passenger transportation over the airways. In speed, he says, is the future of flying. In fact he believes in it for all future transportation, land, water and air.

"The day is coming," he said, "when we shall ride in planes that travel 200 miles an hour, trains that move at 100 m. p. h. and we will drive our automobiles over express highways at 60 and 70 miles an hour. Does that sound impossible? Then excuse it as the idle dream of a speed demon who likes to sit back in an easy chair and visualize through the smoke rings of his cigar, new speed pictures of tomorrow."

The glider, Captain Hawks recommends as one of the best means of training for the brotherhood of aeroplane pilots.

"Primarily," says Captain Hawks, "the glider has sound fundamental values. Unquestionably, it offers a very safe and inexpensive means to student aviators for instruction. The novice in flying gets a keener technique and a better knowledge of aerodynamics. In the first few tender hours of flying he can learn a great deal more with a glider than with a powerdriven plane. He is not depending upon the motor but is learning currents of air, the action of the controls; he is depending more upon real flying as it is taught to us than by sheer horsepower. Every landing that he makes is a forced landing because he has no motor, so his judgment in approaching fields, and landing on marks is keener.

"The novice receives the thrill of his life on his first glider flight, though its duration may be only half a minute; he gains a decided feeling of power later when aloft for fifteen minutes, alone. I have observed many skeptics make their first glider flight and have seen them change in a snap of the fingers from doubting Thomases to boosters. I have seen many contemporaries who thought they had enjoyed all the thrills and sport of aviation through power-driven airplanes turn to gliders like children to a new toy. There's just as much skill required and just as much thrill and fun enjoyed in gliding as in speeding through the air at double express train paces."

The object of the flight of the Texaco Eaglet, in which Captain Hawks was towed from San Diego to New York last year by J. D. ("Duke") Jernigin, Jr., who flew the Waco Texaco 7, was to stimulate interest in gliding, which in brief, is a cheap and safe stepping stone to powered machines, provided, of course, that proper instruction is first given the student. Obviously, no student will move immediately from completion of a course in gliding to flying a ship such as the Hawks speed plane with its engine of more than 400 horsepower and a demonstrated speed of 270 miles an hour.

But here again, Captain Hawks has ideas: If a "kicker" motor of two cylinders is developed to drive gliders efficiently and safely, a new intermediate and valuable step in aviation will have been accomplished. Says Hawks further:

"I have made a few observations which have convinced me that the so-called primary glider with its skeleton fuselage, inefficient wings and controls, has no place in the picture of American gliding activities. I would rather see young men start their glider work with the secondary or utility type of glider.

"I am opposed to the automatic launching device which spring tension snaps the glider into the air with such violence that it is not only unnatural but extremely dangerous to even an experienced pilot. I believe that gliders and soarers must be taken seriously by either those experienced in flying or by students. It is a real art, not as simple to accomplish as it seems, and cannot be taken lightly. Gliding, in my opinion, is safe if properly supervised and instruction is thorough."

If gliders remain only gliders they will still impart the fundamentals of flying, and from them the student may step to a fledgling airplane and meet the "horses" that drive it. Here again, progress is obviously gradual, but sure. Out of such a mill it is easy to visualize the emergence of a new crop of aviators who might well provide considerable slipstream to veteran fliers of today.

At Mitchell field, Long Island, one of the army flying fields where reserve training is carried on there are planes reserved every week-end throughout the year for the use of reserve corps officers. This is the case at nearly all the army flying fields. It is the privilege of the officer and at the same time an Air Reserve corps requirement to fly an army plane a certain number of hours every month.

Once a year the reserve corp officers train for two week periods at the army fields throughout the country. At New York the observation squadrons composed of officers of the Second corps area camp at the Long Island field during the summer. At fields in the south and southwest reserve corps training is carried on throughout the year.

Lectures by regular army aviation officials cover such subjects as radio communication and equipment, navigation, cross country flying and aerial photography. Then with parachutes strapped to their backs, a strict army regulation, the fliers put these lecture subjects to actual practice in the air in addition to formation and observation flying.

There are two primary aviation schools in Texas and California and one advanced school at Kelly field, San Antonio, Texas. The graduate of the reserve school goes in the regular army for two years as a commissioned officer and licensed pilot.

Out of some several thousand applicants to the army flying schools every year, a few hundred are enrolled for the primary training. Less than half of these succeed in obtaining their diploma, commission and license as a reserve army flyer. This past June 98 cadets received their "wings" at Kelly field and were assigned to army fields throughout the country. A few days before 245 applicants were selected to begin training.

Courses in both the primary and advanced schools give the cadet 225 hours in the air with the necessary auxiliary studies in meteorology, airplane-engines, navigation, radio, aerial gunnery and other academic and field subjects for military pilots.

Besides strict physical examinations to determine whether or not the cadet is going to make a flier, he is put through tests which are described as psychological by the instructors. He needs, they maintain, a re-education to give him "air confidence" and "air sense."

One of the cadet's first experiences which is almost as frightening as his first solo flight, is a tryout in an "orientator," a mechanical device which whirls and revolves him through every revolution and movement a plane will make in the air.

It resembles the cockpit of a plane and in that the cadet sits. The mechanism is dual-controlled, that is, the cadet operates controls similar to those of an airplane and the instructor sitting outside of the device operates a control which puts the cockpit through its motions. The instructor, who gets a certain enjoyment out of the business, no doubt, tries to upset the equilibrium of the cadet while the cadet tries to maintain it.

Soon after he enrolls the cadet starts actual dual flying. After a few days of infantry drill and other ordinary military duties to put in the mind of the cadet that he is one of Uncle Sam's soldiers, within the first week he finds himself with his instructor ready for his initial flight. The cadet is getting his first lesson—to have full confidence in his instructor. In order to put this over the instructor goes through a few spins and rolls until, in some cases, a cadet is about ready to crawl in his teacher's pocket. Another purpose of this flight is to have the cadet "feel out the situation" of flying for he is told nothing before he starts except to hop in the plane.

The flying is done in the morning and the ground schooling in the afternoon of a day that lasts from 6:30 until 4:30.

His next venture aloft, the cadet is told, is for "air work." It consists of straight flying, spins, banks, forced landings and the course lasts ten flying hours. In the forced landing instruction, the instructor kills the engine while the plane is in some precarious position or locality and the cadet must glide to the ground safely. A careless accident on his part will promptly eliminate him from the cadet ranks.

His next trial is a solo hop around the field watched closely by his instructor on the ground. And when the cadet returns safely to the field, even though he has shown, possibly, great skill in handling his first flight, he is greeted with, "Well, did ja bring that plane back without smashing it up," by his instructor. The purpose of this is to keep the embryo pilot from getting a "swelled head."

For eight months the cadet continues his lessons in his own plane. Those lessons include night-flying, acrobatics, cross-country and formation flying, navigation, gunnery, bombing, radio and military tactics of all sorts.

His training in acrobatics begins after he has had about twenty hours in the air. Keeping always a level head and a keen eye, he must put his plane through spins, nose dives, loops, rolls, slow rolls, half rolls, and snap rolls. Flying over an "air course" he must always come out of a roll aiming his plane at a certain designation. There is no fluttering about in the air.

A unique feature of gunnery practice is the use of a camera gun with which the cadet trains a lens on the target and "shoots" a picture instead of a bullet. The instrument resembles a gun in every way and the operation of it is almost exactly similar. The films are developed at the end of the attack and if a photograph shows the target, a hit is scored.

Navigation and cross-country flying are two of the most important branches of the flying course. It covers the study of compass and instrument reading, the use of the sextant and course spotting. An interesting subject, too, is the study of artificial horizons. Horizons are created in the sky for the guidance of the navigator just as a ship's captain uses the actual horizon of the sea to determine his position.

In the advanced school to which the cadet goes for about four months after he completes the primary school course, he gets classification training in all types of planes. There it is determined just what kind of flyer he is. In the army there are four kinds, observation group, attack, bombardment and pursuit.

The overly-cautious and apprehensive flyers are quickly detected and eliminated. It is the pilot who can smilingly pull himself out of a barrel roll, drop to the ground on a neat three-point landing, hop out and nonchalantly light a cigar, who is given the coveted gold wings.

DISCARD BILLBOARDS

In response to letters sent out by the General Federation of Women's Clubs and other organizations, 141 of the largest national advertisers have agreed that the use of billboards which deface the landscape should be abandoned. The same view has been expressed by sixteen of the largest advertising agencies.

Advertisers are beginning to realize that billboards which mar the scenic beauty along the nation's highways are a source of annoyance and irritation to tourists and others, which does not make good will for the firms which indulge in their use.

The view of most of the concerns consulted is fairly expressed by the Haines Advertising Agency of Philadelphia, which wrote:

We have not been able to check any great tangible results from outside billboard advertising. Accordingly we prefer newspapers and can not see why our beautiful landscape should be marred by promiscuous advertising."

Another firm declared that "nobody would suffer very much if all signs and billboard advertisements were abolished, as there are certainly enough other forms of advertising available."

Many large advertisers have voluntarily discontinued billboard advertising during the last four or five years, and it is safe to say that the efforts of the women's organizations in eliminating unsightly out-door signs will convince many others that they are not only disfiguring to the landscape, but involve a waste of money which might well be spent more profitably in other publicity mediums, particularly the newspapers.

Another weakness of our distribution system is seen in the fact that with an area of more than three million square miles in this country it's hard to find a place to park.

EDISON WAS SELF-TAUGHT

Since the death of Thomas A. Edison on October 18, many thousands of articles dealing with his life have been published. The tributes paid to his genius by leaders all over the world have been unprecedented. And he deserved them all, and more.

To Edison came the satisfaction of seeing his inventions revolutionize conditions under which mankind lives and works and plays. His most important invention was the incandescent light in 1879, which made possible the electric industry. He invented the phonograph in 1876, and was a pioneer in developing motion pictures. Nearly 1,200 inventions were the product of his fertile brain.

Edison had not more than two or three months of schooling, but received some early instruction from his mother. Aside from this, he was self-taught, and remained a student throughout his eighty-four years. The results of his tireless energy and infinite patience can not be measured, but it is safe to say that he did more for the advancement of civilization than any other man who ever lived.

EDITORS RENEW FIGHT

Continuing its long fight against the encroachment of the government upon private business, the National Editorial Association recently launched a new campaign, one feature of which is furnishing members attractive colored stickers bearing the words: "Government in business cuts the heart out of private enterprise and kills individual effort."

Circulars containing arguments against government operation of business enterprises are also being widely distributed by the Association, and members are asked to aid in the fight for the freedom of private business by calling attention to the injustice of using the taxpayer's money to set up government subsidized and tax free enterprises to compete with him. The circulary says:

"The government seems to have embarked more and more into socialistic experiments that have been mighty expensive, as indicated by the Federal Farm Board's experments in marketing grain, cotton, and other products, and the losses experienced in Michigan in the manufacture of cement by convict labor. The time has now arrived when publishers should point out to their constituency the danger of government encroachments upon private business, which have become so outstanding that the life of our nation is threatened."

In this campaign the National Editorial Association is fighting for every legitimate private business in the country, and it should have the support of everyone who believes in Americanism, and is opposed to Communism and other isms which seek to destroy our national structure.

BIG CONTRACTS LET

Contracts were awarded a few days ago for one of the largest construction projects launched in recent years —the building of the Rockefeller Radio City in New Yark. These contracts involve an expenditure for material and labor of approximately fifty million dollars, the work to be started by December 1.

The whole project will cost $250,000,000, and additional contracts will be let from time to time until it is completed, giving employment to many thousands of workmen in the various factories which will supply the material and in construction forces on the site of the new "city," which will cover several blocks in the vicinity of Fiftieth street and Fifth avenue.

There will be a 66-story tower, to be the largest office building in the world, a music hall to seat 6,100 persons, an immense sound motion picture theatre, an additional office building thirty-three stories high, and numerous other buildings of great size.

When completed this new Radio City will be by far the most costly and imposing amusement center ever erected. That construction is to begin on a large scale immediately is welcome news, as it means work for many men of the building and other trades who sorely need it just now.

ACHIEVEMENTS IN SAFETY

In spite of the terrible rise in automoble injuries and fatalities, there is a bright side to the accident problem. The organized safety movement—which was twenty years old recently—"points with pride" to such achievements as these:

A steady decrease in accidental deaths to children since 1922, when school safety work was inaugurated on a national scale. During this time accidental adult deaths have increased 38 per cent.

A decrease of at least 30 per cent in fatal industrial accidents in the past twenty years.

A decrease of 19 per cent in accidents involving the drivers of trucks, buses and taxicabs in four years. During this time private passenger cars involved in accidents have increased 37 per cent.

This is a fine record, and the safety workers are to be congratulated. The main problem now is to find some means of checking accidents on the highways and in the homes—in the latter 30,000 deaths occur each year.

Sleep is a form of intoxication, a scientist declares. And married men should beware of talking loosely while under its infulence.

An Illinois man's life was saved when a bullet was deflected by a patent cigar lighter. So those things are good for something after all.

THE RESULT OF FIRE

The total fire loss for the first nine months of 1931, according to an estimate by the National Board of Fire Underwriters, was $340,713,477, as compared with $348,421,656 during the same period last year.

One can be thankful for small favors and feel some sense of optimism in the improvement. But at the same time it is practically certain that at least 80 per cent of the loss was totally unnecessary—was, in other words, caused by human neglect, carelessness or ignorance. If the last three months of the year result in waste on the same scale, our total 1931 bill will be well in excess of $450,000,000.

The person who is responsible for a fire is just as much a menace to the community as the person who causes accidents through reckless handling of an automobile. But, as yet, the public has not taken this attitude. It has had only a passive interest in fire waste, regarding it much as a matter of course. It has not realized that fire is an individual problem which can be solved only by indivdual effort in co-operation with other individuals throughout the entire community.

Fire is a destroyer of lives, property, jobs. It is a barrier in the way of industrial activity and home ownership. It is a cause of unemployment, of bankruptcy, of intense misery. Knowing this, all of us should do our part in seeing that it is outlawed forever.

Commonwealth Bay, in the Antarctic, is the world's windiest place, according to an explorer. But he probably hasn't visited the Senate chamber.

A columnist says every time Uncle Sam goes into a diplomatic conference he loses his shirt. That won't happen to Gandhi, but he may lose his loin cloth.

After losing a finger while fooling with a buzz-saw, a Pittsburgh man lost another while showing a friend how he lost the first.

Colma News Notes

Mr. and Mrs. Jack Muili, of San Jose, visited with the Garibaldi family last Sunday.

Baby Joan Garibaldi, who has been suffering from a severe cold for the past week, is much improved.

Buster Torre, of Castle Gardens, spent last Thursday in San Francisco visiting with relatives.

Messrs. Romie Lagomarsino and Louis Merlo motored to Santa Cruz last Sunday to visit relatives.

Miss Gleeson and Mrs. Eva Claus, of San Francisco, visited with Mrs. Evelyn Merlo last Wednesday afternoon.

Mrs. Oliver Cecchi is at home again after being in St. Luke's hospital for the past few days with an abscessed tooth.

Mrs. Nilsen, of Cavour street, entertained her father and brother, Messrs. A. and I. Kolness, of San Francisco, last Sunday.

Miss Vera Randall, Mrs. Helen Sinclair and Mrs. Carlton were dinner guests of Mrs. Frank Clarizio, of Moltke street, last Tuesday.

Mr. and Mrs. George Landucci and daughters Etherine and Gloria, were dinner guests of Mr. and Mrs. Louis Merlo one evening this week.

Mr. and Mrs. Carl Schwartz and sons, Joseph and Carl, Jr., motored to Patterson over the week end to visit with the Heinzle family.

Mr. and Mrs. Laurino Martinelli, of Mateo avenue, were dinner guests of Mr. and Mrs. Lazzaro Martinelli, of South San Francisco, last Sunday.

Miss Ida Camenzind entertained the members of the Pajama Club with a Hallowee'en party at her home on Hallowe'en eve. All present reported having had a good time.

Word has been received from Mrs. Daisy Gibson, who left Colma two weeks ago to attend her mother, who has been ill in Los Angeles. Daisy expects to return home soon.

Louis Arata, son of Mr. and Mrs. Attilio Arata, who has been in the Childrens' hospital for the past two weeks, is now at the home of his parents, feeling much improved.

Messrs. Frank Garibaldi, Tim Haggerty, Bob McDonald and Lin Ruggles are planning to leave today to attend the Stanford-Southern California football game in Los Angeles.

Mrs. George Lagomarsino and sons George and Gene, Mrs. Sam Valentino and daughter Betty Lorraine, and Mrs. Henry Lorenz spent last Sunday afternoon with Mrs. Ricco Lagomarsino.

Mr. and Mrs. A. Kinsler and Mr. and Mrs. Burnham attended the dog races at Belmont last Saturday evening.

Mr. and Mrs. Peter Ramer and children, Junior and Janet, of Cavour street, motored to San Jose last Sunday.

Mr. Angelo Benedetti, who has been ill the past week, is much improved and slowly regaining his good health.

Mrs. Iren Torre, who has been on the sick list this week, suffering from a severe cold, is now up and around again.

Messrs. Robert Silva, Victor Rossi, Benjamin Haubrich, Sr., and Benjamin Haubrich, Jr., motored to Moraga Valley last Sunday.

Her many friends are glad to hear that Mrs. Helen Sinclair is feeling strong enough to be up and out after her recent operation.

Last Sunday evening Misses Marie and Josephine Musante and Lorraine Gregoire spent a most enjoyable evening in San Francisco.

Mrs. Stephen Fischer and daughter Sylvia attended the La Fiest Club meeting at the home of Mrs. Lorraine Wall last Thursday evening.

Mrs. Anna Cecchi, of Garibaldi street, visited in South San Francisco with her siser, Mrs. Frank Gotelli, Thursday afternoon of last week.

Mr. and Mrs. E. Bergman and daughter Elenor and Miss Margaret Alger, of San Francisco, visited with Mr. and Mrs. S. Fischer last Tuesday evening.

Mrs. George Volkman was the guest of honor at a surprise stork shower, given by Mrs. Louis Varni, Mrs. James Packwood and Miss Irene Bianchi, Thursday evening of last week, at the home of Mrs. Lous Varni of Templeton avenue. The evening was spent in playing bridge, after which dancing was enjoyed by all present. Pretty little stork score cards were on each table. Mrs. Volkman received a beautiful green bassinette. Among those present were: Mesdames Evelyn Witt, Estelle Packwood, Josephine Varni, Kathleen Bertetta, Irene Pighetti, Ida Garibaldi, Dorothy Garibaldi, Margaret Varni, Teresa Langford, Mabel Martinelli, Hilda De Martini, and Minerva Doull; Misses Myrtle and Esther Durbin, Anita La France, Josephine Loretz, Irene Bianchi, Sylvia Anderson, Flora Foppiano and Ida Camenzind. The party lasted until the wee sma' hours of the morning. All present reported having a most enjoyable time.

SAFE CROSSING RULES PRESENTED IN SCHOOLS

"Cross streets with traffic—never against it."

This is the subject of the November safety lesson distributed to more than 13,000 class-rooms in Northern and Central California by the public safety department of the California State Automobile Association. The lesson is accompanied by a poster illustrating the advice.

Motorists generally, the lesson states, approach intersections with caution, with their cars under control, so that a stop can be easily made. The lesson declares pedestrians should make a practice of crossing only at intersections and observe the following rules:

1. If the intersection is controlled by traffic signals, watch the signals and the moving stream of traffic, then cross with the traffic—never against it. Cross as you see the people crossing on the poster.

2. If a police officer is directing the traffic, first watch for his signal and then look at the traffic to make certain that you understand the signal. Then cross in the direction in which traffic is moving. In either of these cases, if it happens that, when you reach the corner, traffic is moving across the path you want to use, wait until the signals change and you will then have a clear path.

3. At intersections where there are neither signals nor an officer, you can apply the same idea to crossing the street or highway. After you have decided in which direction you want to cross, wait until there is a lull in the traffic crossing your path, then move quickly to the other side of the street, always keeping a sharp watch for cars that may be approaching.

4. At intersections where one of the streets has been established as an arterial and protected by stop signs, remember that the presence of the signs has a tendency to increase the speed of traffic on the arterial street. If you must cross an arterial, be especially careful before you walk into the street. Remember that cars on this street may not be able to stop as quickly as on other streets, making it advisable to wait until there is no approaching traffic from either direction in the immediate vicinity.

It wouldn't be so bad to be poor if we could keep the distressing fact a secret.

SOMETHING NEW

A late device in the television field is a scanning disk with a spiral of lenses instead of pin-holes.

A recent invention is a new steel rake for cleaning lawns or gardening which has teeth of such shape that they cannot become clogged.

Pneumatic cushions made of rubber are provided to stop the rattle that often develops in automobile doors.

For supporting garment hangers in automobiles a leather loop for their hooks has been perfected that can be fastened wherever desired.

An attachment for motion picture projectors has been invented to clean grease, oil spots and dirt from films as they are being exhibited.

A machine has been invented to take a golf ball from a magazine and place in on a tee when a lever is pressed with a club.

Air guns using fan-tailed slugs that can kill small game at a distance of 50 feet have been developed in England.

A detachable motor weighing 22 pounds has been designed for use with gliding planes.

A new sweater for hunters and fishermen contains tubes filled with a buoyant material that will keep a wearer afloat in water for several hours.

One ship on the Pacific Coast is fitted with an apparatus to remove and salvage oil from the surface of water in harbors and about piers.

For producing photostatic copies of documents, a light sensitive plate operated by exposure to light for a few seconds has been invented.

A recent invention for retaining spare tires on automobiels is a combination lock operated by a knob like a safe lock.

A greenhouse set on roller bearings and kept slowly rotating to give plants the full benefit of the sun is an invention recently patented.

For advertising purposes and supplying music for public dances, two Los Angeles men have mounted on a truck a sound amplifier that can be heard four miles.

A new kitchen table includes an adjustable swinging seat, two drawers and two towel racks, and a receptacle for waste.

The Los Angeles inventor of a clamp for the use of makers of upholstered furniture asserts that it enables two men to do the work of seven.

An automatic fire extinguisher that sprays all parts of an airplane when its temperture rises to a danger point has been invented in France.

A radio receiving set has been designed to be carried on an automobile running board, its dial being controlled through a flexible cable and its speaker mounted at any place.

DID YOU EVER STOP TO THINK?

By Edson R. Waite, Shawnee, Okla.

E. P. Clarke, editor of the Riverside (California) Daily Press, says:

That one of the most interesting developments in the population of the country for the last decade was the tendency of the big cities to absorb the suburban communities.

Los Angels has set the pace in this matter, but all over the country scores of flourishing cities that appeared in the census returns of 1920 were not listed in the 1930 census. They have been annexed to the great metropolitan centers of population.

The change is of doubtful value. In many respects a city of from 5,000 to 30,000 population is an ideal community, and the idealism and individuality are lost when such a community is absorbed by one of the great cities.

The movement for annexation continues, and, unless it is resisted by the smaller cities, the present decade will see the disappearance of scores more of cities that now have an established fame of their own.

It is doubtful if great cities like Chicago and Los Angeles can offer as good government or as fine opportunities for civic and educational development as can be supplied by the smaller cities in their "metropolitan area."

Reports indicate that the fortune left by the late Sir Thomas Lipton amounted to only about ten million dollars, a tidy sum, although much less than one would have expected the former tea king to have amassed. But the "world's best loser" had given away many millions in philanthropy and left most of what remained to charitable institutions, as he had no near relatives.

Nearly one-third of the workers in Hungary now earn less than $400 a year.

The average pedestrian can tell you that the value of walking as an aid to health is greatly exaggerated.

FACT VERSUS FANCY

Dabling with spiritualism or other supposed occult ideas are dangerous to one's integrity of mind, according to Dr. William J. Mayo, eminent surgeon and medical scientist, who points out that many men of brilliant attainments have been misled by imaginary phenomena.

He mentions Sir Conan Doyle, Sir William Crookes and Sir Oliver Lodge as three outstandinx examples of men of science who interested themselves in psychic phenomena and came to believe in the reincarnation of the dead. Bnt he points out that these eminent men got that way late in life, after their mental powers were on the wane.

Dr. Mayo further points out that many things we experience today and understand as perfectly natural phenomena would have been attributed to the supernatural if they had been produced in earlier times. For example, if some one had invented the radio during the dark ages, he would have been considered in league with Satan and would probably have been burned at the stake. So, he concludes:

"Whenever we do not understand existing phenomena, let us lay the lack where it belongs—to the failure of the understanding which the future may clear up—and not allow ourselves to prostitute intelligence by talking about fairies, ghosts, spirits, and reincarnation of the dead."

TEACHERS WILL GIVE DAY'S PAY TO JOBLESS

San Mateo and Burlingame teachers on Wednesday of last week, in conference with public officials, agreed to contribute a portion of one month's salary to the unemployed. The San Mateo teachers will give approximately $300, or 3 per cent of their aggregate pay. Burlingame teachers will donate $200.

The contributions of the San Mateo teachers amounts to one day's pay per teacher. The Burlingame donation will go to the relief bureau established by Mayor Buck.

A cold weather face mask for aviators is made of materials sufficiently stiff to retain its shape so it does not interfere with breathing.

NOTICE OF TRUSTEES' SALE OF REAL ESTATE UNDER DEED OF TRUST.

On Monday, the 23rd day of November, 1931, at 11 o'clock A. M., at the main entrance to the Daly City Hall, No. 51 Wellington Street, Daly City, County of San Mateo, State of California, the undersigned as trustees will sell at public auction to the highest bidder for cash, in lawful money of the United States, the following described property situate in the City of Daly City, County of San Mateo, State of California, to-wit:

Lot number Twenty-four (24) in Block number Twenty-five (25), as designated on the map entitled "Map No. One (1), Vista Grande, San Mateo County, California," which map was filed in the office of the Recorder of the County of San Mateo, State of California, on November 5th, 1906, in Volume "C" of Maps at page 35 and a copy thereof entered in Volume Four (4) of Maps at page 41.

Said sale will be made to satisfy the obligations secured by and pursuant to the power of sale conferred in a certain deed of trust executed by and between Gus Theisen and Maude Theisen, his wife, as trustors, to Rudolph Mohr, Jr., and Howard E. Mohr, as trustees, for the benefit and security of Moneta Investment Company, a California corporation, dated September 20, 1926, and recorded September 29, 1926, in the office of the County Recorder of the County of San Mateo, State of California, in Book 246 of Official Records, at page 457 thereof. Notice of breach of said obligation and election to sell said real property was recorded in the office of said County Recorder on July 6, 1931, in Book 522 of Official Records, at page 451 thereof.

This notice is given in compliance with the demand of the beneficiary, Moneta Investment Company, a California corporation, made the 23rd day of October, 1931, made in writing on the undersigned trustees.

Dated: San Francisco, California, October 30, 1931.

RUDOLPH MOHR, JR.,
HOWARD E. MOHR,
Trustees as aforesaid.

William Penn Humphreys, Attorney at Law, 623 Balboa Building, 593 Market Street, San Francisco, California, Attorney for said Trustees.
Oct. 30; Nov. 6, 13, 20, 1931.

NOTICE OF TRUSTEE'S SALE

On Wednesday, the 18th day of November, 1931, at the hour of 10:05 o'clock A. M. of said day, at the main entrance to the banking house of the Anglo-California Trust Company, No. 532 Market Street, San Francisco, California, Anglo-California Trust Company, a corporation, trustee, will sell, at public auction, to the highest bidder for cash, in lawful money of the United States, the following described real property, situated in the County of San Mateo, State of California, and bounded and described as follows, to-wit:

Lot numbered 29 in Block numbered 21 as shown on that certain map entitled, "Map of Re-subdivision of a Portion of Union Park, San Mateo Co., Cal." filed in the office of the County Recorder of San Mateo County October 8, 1906, in Book "D" of Original Maps at page 60 and copied into Book 4 of Maps, at page 37.

Said sale will be made to satisfy the obligation secured by and pursuant to the power of sale conferred in a certain deed of trust executed by Clarice Olson (unmarried), grantor, to Anglo-California Trust Company, a corporation, as trustee, for the benefit and security of A. L. Lundy, dated June 10th, 1927, and recorded June 16th, 1927, in the office of the County Recorder of the County of San Mateo, State of California, in Volume 298 of Official Records, at page 358, of said County.

Notice of breach of said obligation and election to sell said real property was recorded in the office of said County Recorder July 14th, 1931, in Volume 534 of Official Records, at page 32. This notice is given in compliance with the demand heretofore made on the trustee by the beneficiary.

Dated: October 19, 1931.

(SEAL.)
ANGLO-CALIFORNIA TRUST COMPANY, as Trustee.
By FRED V. VOLLMER,
Vice-President.
By FRANK H. LOUGHER,

NOTICE TO CREDITORS

No. 5645.

In the Superior Court of the State of California, in and for the County of San Mateo.

In the Matter of the Estate of Earl Rogers, Deceased.

Notice is hereby given by the undersigned, Pearl Rogers, administratrix of the estate of Earl Rogers, deceased, to the creditors of and all persons having claims against the said deceased, to file them, with the necessary vouchers, within six months after the first publication of this notice, in the office of the Clerk of the Superior Court of the State of California, in and for the County of San Mateo, or to exhibit the same, with the necessary vouchers, within six months after the first publication of this notice, to the said Pearl Rogers, at 250 Acton Street, Daly City, San Mateo County, California, the same being the place for the transaction of the business of said estate.

Dated this 22nd day of October, A. D. 1931.

PEARL ROGERS, Administratrix.
Bernard B. Stimmel, William E. Gearhart, Attorneys for Administratrix.
First publication in the Daly City Record, October 30, 1931.
Oct. 30; Nov. 6, 13, 20, 27, 1931.

NOTICE OF TRUSTEE'S SALE

WHEREAS, Manuel F. Brass and Florence Brass, his wife, heretofore executed and delivered a certain deed of trust, dated March 6, 1930, to Pacific States Auxiliary Corporation as trustee, to secure the payment of a promissory note to Pacific States Savings and Loan Company, a corporation, and also all other indebtedness agreed by said deed of trust to be secured, which said deed of trust was recorded in the office of the County Recorder of the County of San Mateo, State of California, in Volume 460 of Official Records, at page 249; and

WHEREAS, default having been made in the payment of said promissory note according to its terms, Pacific States Savings and Loan Company, the owner and holder of said note and beneficiary under said deed of trust, recorded on May 26, 1931, in the office of the County Recorder of the County of San Mateo, State of California, in Volume 523 of Official Records, at page 305, a notice of breach and of its election to cause all of the property under said deed of trust to be sold to satisfy the obligation thereunder; and

WHEREAS, more than three months have elapsed since said recording of said notice of breach and election to sell, and said Pacific States Savings and Loan Company has demanded that the undersigned, as trustee, sell the property included in said deed of trust, pursuant to the terms thereof and the provisions of the law;

WHEREFORE, NOTICE IS HEREBY GIVEN, pursuant to said demand and the terms of said deed of trust, that the undersigned, as trustee thereunder, will sell without warranty on Tuesday, the 24th day of November, 1931, at 11:00 o'clock A. M., at the City Hall, Daly City, California, at public auction, to the highest cash bidder, as an entirety, all of the property described in said deed of trust, situate in the City of Daly City, County of San Mateo, State of California, and more particularly described as follows:

Lot Numbered Twenty-five (25) in Block Numbered Twenty-seven (27) as shown on that certain map entitled "Map No. 1 Vista Grande, San Mateo Co., Calif." filed in the office of the County Recorder of San Mateo County November 5, 1906, in Book "C" of Original Mans at page 35 and copied into Book 4 of Maps at page 41 thereof.

TERMS OF SALE: Cash, United States gold coin, payable at time of sale.

DATE: September 24, 1931.

PACIFIC STATES AUXILIARY CORPORATION, Trustee.
By HAROLD ROPERS,
Assistant Secretary.

John L. Mace, Attorney-at-Law, 745 Market Street, San Francisco, Cal.
Oct. 30, Nov. 6, 13, 1931.

STATE REPORT REVEALS AUTO DEATH INCREASE

Statistics released recently by the State Highway Patrol show thirty-nine deaths by auto accidents in San Mateo county during the first seven months of 1931, as against thirty fatalities during a like period last year. Almost 95 per cent of these fatal accidents occurred on the Bayshore highway, the report indicates.

As a result of a campaign launched by the highway patrol against reckless drivers last July, the months of August shows a marked falling off in accidents in this territory.

Throughout the state an increase of 200 deaths is shown over last year's figures covering a period of seven months. Taking the state as a whole, non-fatal accidents this year run more than 500 over the number recorded by the first seven months of 1930. State figures show 1,478 killed and 26,333 injured.

CERTIFICATE OF COPARTNERSHIP

No. 105.

Know All Men by These Presents:

That we, the undersigned, F. E. Conci and P. V. Matraia, do hereby certify:

That we are copartners transacting business in the State of California, under the fictitious firm name and style of Lake Merced Nursery & Florist; that the principal place of business of said copartnership is situated at Colma, in the County of San Mateo, State of California, and that the names in full of all the members of said copartnership, and their respective places of residence, are as follows, to-wit:

F. E. Conci, residing at Colma, County of San Mateo, State of California.

P. V. Matraia, residing at 320 17th Avenue, City and County of San Francisco, State of California.

In Witness Whereof, we have hereunto set our hands this 7th day of October, 1931.

P. V. MATRAIA.
F. E. CONCI.

STATE OF CALIFORNIA, } ss.
County of San Mateo. }

On this 7th day of October, in the year one thousand nine hundred and thirty-one, before me, Albert A. Molfino, a Notary Public in and for the County of San Mateo, State of California, personally appeared F. E. Conci and P. V. Matraia, known to me to be the persons whose names are subscribed to the foregoing instrument, and they duly acknowledged to me that they executed the same.

In Witness Whereof, I have hereunto set my hand and affixed my official seal at my office in the County of San Mateo, the day and year in this certificate first above written.

ALBERT A. MOLFINO,

$2.50 for your junky old heater on a new Electric Heater

It HEATS the air

ELECTRIC heat is practical and **economical** for quick warmth when you are dressing, bathing, shaving, or when you come home cold.

Trade in your old heater

Have you an old heater — oil, wood, coal, or electric — that has seen better days? We will allow you $2.50 for it on a new $12.50 Wesix Cent-a-Watt. That means you get the Cent-a-Watt for $10.

The Cent-a-Watt will give you long years of safe, healthful, circulating warmth. It is approved by the National Board of Fire Underwriters.

One user says, "The Cent-a-Watt is a wonderful heater for bathrooms or any small room."

The heater is built upon the same principles as its successful big brothers which heat entire schools, apartment houses, churches, and homes. But the Cent-a-Watt requires no special wiring. It is light in weight and finished in aluminum.

We are making this trade-in offer for a short time only. So come into our office or a dealer's store and select your heater. Or, better still, telephone your order. Then you will be sure of your heater immediately.

We are not having a sale. However, people snap up an offer like this one quickly. Those customers who turn in an old heater will get a new heater for $10. The $10 payable in easy payments of $1 a month. Price of Cent-a-Watt where no old heater is turned in, is $12.50. This offer is also available at your dealer.

CHAPTER VII—Continued

—25—

Harold stood tense at the head of the stairs, listening, with all his exhilaration suddenly shredded away from him. He heard no sound, not even a groan. Everything was perfectly still. Then the club fell from his slack grasp, and the thump of it reaching the floor roused him again. He did not bother to pick up the club; he was too busy wondering what to do.

He would not go on and out of the front door, as Wright had intended. The Frankfurters would know of the plan, and they might be waiting for him there. Or he might walk straight into the arms of some of Bauer's henchmen. And in any case he would have to pass by Wright's prostrate form, and he could not bear the thought of that. Wright might be dead, and Harold could not go on past his body in that pitchy darkness. Besides—Wright might be neither dead nor stunned. He might just be waiting, with his hands of steel, crouched on the landing for Harold to come within reach. No, Harold could certainly not go on down the stairs.

And as certainly he could not go back through the skylight. There was no way of escape from the roof—and maybe Schultz and Hawkins were up there by now. Harold had to find some middle course.

At his back, where he stood at the top of the flight of stairs, was a big frosted window, and through it Harold could just see the lights of the houses in the next street. He fumbled for the catch, and threw open the window. It opened onto a kind of miniature balcony, and Harold, leaning out, could see, fifteen feet below him, the leads above a small mews which began two houses away and ran past the house and for thirty yards farther on. To Harold's panic-stricken mind this was the obvious way of escape. He sought frantically in his thoughts for a means of minimizing that fifteen-foot drop. The only thing at all resembling a rope which he could think of was his suspenders, and he had no sooner conceived the idea than he put it into practice. He unbuttoned them and took them off, extended them to their maximum length, and tied one end to the lowest balcony rail, searching back in his mind for vague memories of how to tie a reef knot. Then he let himself over the balcony, hung by his hands to the rail, transferred his grip to his suspenders, and slipped down these to the end.

Only then, swaying and rotating at the end of his "rope," did Harold regain any trace of sanity. He remembered that in that deceptive darkness he could not be at all sure that the drop was only fifteen feet. With four feet of suspenders, and something like seven feet of Harold at the full stretch of his arms, there might only be four feet between Harold's toes and the leads. On the other hand, the whole drop might be twenty-five feet—Harold might still have a fourteen-feet fall below him. Harold decided not to make the drop.

But even as he came to this conclusion; even as he decided that it might be better to return and face an infuriated Hawkins, his further course of action was dictated by chance. For his suspenders tore through at the junction of their arms, and Harold fell to the leads. It was only a four-foot drop after all.

Harold tried to rally his fast-ebbing wits. He stole cautiously to the edge, went down on hands and knees, and peered over. There were several open garages in sight, and in them various shirt-sleeved men were washing cars. Harold shrank back, hoping he had not been seen. He stole along the leads to the end, and peered over again, this time, for safety's sake, flat on his stomach.

The outlook here was much more promising. Below him there was another fifteen-foot drop, but that drop took him onto the roadway of the mews, while, immediately to his left, the roadway dived through a narrow entrance between two houses into the street. The street! Liberty and sanity! Harold found himself swallowing desperately hard again as he tried to work out how to negotiate the drop.

The solution of the difficulty presented itself at once, for at Harold's elbow was a drainpipe to the ground. Stiffly and awkwardly he thrust himself, toes first, off the leads, grabbed the pipe in the niche of time, and half fell, half slithered to the ground. It only remained for Harold to catch a bus and go home—at least, that is how it appeared at first sight.

Then it dawned upon him that by now his attire had reached a degree of dilapidation which could reasonably be described as fantastic. He had no collar or tie, and his shirt had been torn open to admit the kindly attentions of Mr. Hawkins. The once neat and serviceable blue suit with the block stripe was torn and filthy—there was a huge triangular tear in one knee and one or two small ones here and there in the coat, while both coat and trousers were daubed all over with the filth of dozens of square rods of roof. He was hatless, and, for the moment, shoeless. He felt in his side pockets, and (such is the queer nature of mankind) he experienced as great a shock on finding that one of his shoes was missing as ever Hawkins had given him. At some point in his journeyings that shoe had escaped from his pocket, and, now forlorn and solitary, on roof or on lead or on balcony, marked some stage of his passage.

But he could not wait to ruminate over the point; he had no time for regrets, as it was dangerous to hang about where at any moment attention might be drawn to him. He thrust his foot into his remaining shoe and passed out into the street. He glanced furtively round to make sure no enemy was near, and set off, with one foot shod and the other in a vilely holed sock for Paddington station.

Bauer's myrmidons, although they had gone very thoroughly through Harold's pockets, had taken nothing which had no bearing on the matter of King Raphael's letters. Harold's money in silver and copper still remained in his trousers pockets; of this Harold was sure, for his hands were thrust into those pockets in order to keep up his trousers—he had no suspenders, be it remembered. So in this fashion Harold hobbled along to Paddington station, scrambled onto a bus and rushed upstairs to the comfortable darkness where his foot would be invisible and his rags less noticeable. It was in this fashion that Harold returned to Scae Fell View at eleven o'clock at night, after thirty-six hours of unexplained absence.

Nothing untoward occurred on the bus, but as he climbed stiffly down the stairs at Morley Park station some one saw him. Some one turned agitatedly to his companion and pointed him out. Some one began to follow him along the quiet streets. Harold quickened his steps; the steps of his pursuer quickened likewise.

But rolling down the road came deliverance for Harold. A burly blue-clad form emerged into the lamplight, hands in belt and that reassuring aspect of preternatural self-confidence which so endears the London policeman to well-behaved Londoners. Harold's faltering steps regained their lost rhythm; he walked on serenely past the policeman. Scae Fell View was now less than a quarter of a mile away.

The policeman eyed Harold curiously as he passed in the lamplight. In that intensely respectable suburb it was not usual to see young men with scared faces, with torn clothes and without collars, and—by George! yes—one shoe missing. The policeman thought it might be as well to know a little more about Harold; he turned and rolled along with unhurried gait, keeping up easily with Harold's frantic but weary stride.

The policeman saw Harold reach the gate of Scae Fell View; saw him enter boldly and open the door with a latch-key; saw him pass in and heard the door shut behind him. He decided that Harold must be a law-abiding citizen of eccentric attire, and turned away satisfied. And all round him in the gloom of the night the emissaries of the Deutch-Oesterreichische Erdol Gebief Gesellschaft, and of the Frankfurt Kartel, and of his majesty the king of the Huns and Avars, faded back into the darkness to resume their watch once more in their webs.

There were still lights in Scae Fell View as Harold entered, and the sound of his key in the door brought forth Mrs. Pound in the hall from the drawing room. But Harold, mortally tired and desperately scared, did not even care. He dragged his leaden feet along the hall, grasped the banisters, and began to climb the stairs. Mrs. Pound observed the missing shoe, the missing collar, the torn clothes; she remembered the fact that Harold had been out all the night before, and it was some seconds before she could rally. And when she did, Harold was half-way up the stairs.

(TO BE CONTINUED.)

Found in Shakespeare

The line "caviare to the general" appears in Shakespeare's play, "Hamlet," Act II, Scene II where Prince Hamlet is speaking to the actors, saying: "I heard thee speak me a speech once, but it was never acted; or if it was, not above once; for the play, I remember, pleased not the million; 'twas caviare to the general." The word "general" here signifies "the general public." Caviare, the Russian condiment made from the roe of the sturgeon, was then considered a new and fashionable delicacy, but was not obtainable by nor relished by the common people. Consequently, anything which fails to achieve popularity because it is thought to be above the popular taste or comprehension may be considered as "caviare to the general."

Cannibals Respect Whites

Although cannibals of the African jungle place little value on a human life, they will never kill a white man, J. E. Wendes, Naugatuck (Conn.) rubber manufacturer, asserted after three years among the savage tribes. Kind treatment and a government check on all whites entering the jungle assures their safety, he said.

High Cultivation

At the experiment station of Colorado Agricultural college, the only one of its kind in the world, fruits, vegetables and grain are cultivated in the mountains at an altitude of 8,000 feet.

Have Your Plane Licensed Before You Fly

ORDERS have been issued by the Department of Commerce that no one shall be permitted to operate an airplane unless the plane has been licensed by that department. In this way it is hoped the number of accidents may be greatly decreased. The officials of various states are doing their best to enforce this ruling. Our photograph shows Lieut. T. M. Hughes of the New York state police who is stationed at Roosevelt field to warn pilots against flying unlicensed planes. About November 1 he will begin making arrests, and the penalty is $100 fine or 90 days in jail.

BEDTIME STORY FOR CHILDREN

By THORNTON W. BURGESS

BOWSER WONDERS WHAT AILS PETER

Bow wow, wow! Here is where I get you!
Thump, thump, thump! I will never let you!

IF UNC' BILLY POSSUM thought Peter Rabbit crazy when he ran out from the safety of the bramble-tangle in the Green Forest right under the very nose of Bowser the Hound,

Sammy Jay and Blacky the Crow Hurried Over to Watch the Chase.

you may be sure that Bowser thought the same thing. He had tried his very best to frighten Peter, and Peter had merely sat there and laughed at him. Then Peter suddenly hopped out right in front of him and Bowser was so surprised that for a minute he quite lost his voice and simply stared in the most stupid way. Peter hopped along a few steps and then thumped the ground, which was his way of saying "Catch me if you can!"

"Of course I'll catch you!" roared Bowser. He didn't really believe he would, for he had chased Peter often enough to know that Peter was full of smart tricks, but he wanted to scare Peter, and then perhaps he liked to boast a little, too. Pretty soon he began to think that he really might catch Peter this time. You see usually Peter kept so far ahead of him that he only got a glimpse of him now and then and followed him by keeping his wonderful nose in Peter's tracks, but this time Peter kept only a little way ahead and in plain sight all the time, so that Bowser could follow him without depending on his nose at all. Sometimes Pete would let him get so close that it seemed as if he would surely catch him in the next jump, but somehow he never did.

Bowser was puzzled. There was no doubt about that. Peter wasn't doing any of the things he usually did. He didn't run in a single circle. He didn't once try to mix his trail. He didn't take a single long side jump to break his trail and make Bowser waste time in hunting for it. In fact he didn't play the game at all the way he usually did. You see Bowser had become so used to hunting Peter and never catching him that he had come to look at it as a game, and he knew that Peter looked at it the same way. Right down in his heart Bowser didn't want to catch Peter so much as he tried to make himself think he did. You see if he should catch Peter why that would put an end to these games.

But this time it began to look as if he really might catch him. Peter was running as if he were lame. "Something is the matter with him," thought Bowser. "As sure as I can wag my tail something ails Peter Rabbit. He isn't running right. What under the sun made him come out of that bramble-tangle when he knew that he was perfectly safe there? And why didn't he run into that hollow log we just passed? I couldn't have got him there and he knows it. He must have lost his senses. He must be crazy. Well, if he doesn't know enough to take care of himself it is no fault of mine. It is every one for himself in the Green Forest and Peter can't expect me to let him go after the way he has teased me and fooled me and made fun of me in the past."

So Bowser ran harder than ever and the Green Forest rang with his great voice, so that everybody within hearing knew that there was an exciting chase going on. Sammy Jay and Blacky the Crow hurried over to watch it, and when they saw how close to Peter Bowser was, and that Peter wasn't trying a single trick, but seemed to be having the hardest work to keep out of Bowser's reach, they, too, were sure that something was the matter with Peter.

"He's trying to reach the Old Brier Patch, and he'll never get there in the world" cried Sammy Jay. "He's all out of breath now, and he hasn't reached the edge of the Green Forest yet. I never expected to see the day when Bowser the Hound would catch Peter Rabbit, but he's going to do it this time or my name isn't Sammy Jay."

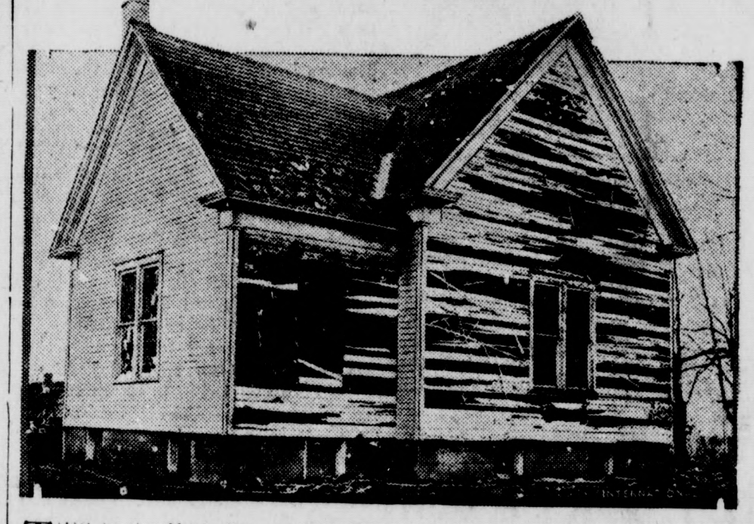
Chic Evening Dress

This lovely evening dress is of wine colored flat crepe. The two pleated shoulder straps on the right and the one on the left give the dress a unique touch. The belt is pleated at waist and forms a bow in back with long streamers. The skirt is a gored and circular effect.

What a Real Hailstorm Can Do



THIS is the Methodist church at Rayville, Mo., after hailstones as large as baseballs and blown by a 60 mile gale had demolished the sides of buildings which were exposed directly to the wind. Weather boarding was smashed, windows broken and shingles torn off.

SOMEWHERE BETWEEN

By DOUGLAS MALLOCH

ALL things must be tempered. The wind from the sea
Is warmed by the sunlight; the shade of the tree
Makes cooler the summer; whatever God sends
Is tempered a little before the day ends.
And so must a mortal, in dealing with men,
Mix mercy with justice, forgiving again
The sisters who stumble, the brothers who fall,
As God has so often forgiven us all.

If others offend you, be stern, if you must,
And yet, in the heat of the quarrel, be just.
Yes, speak and yet listen, and argue yet hear;
The fool is all shouting, the wiser give ear.
The wrath of the righteous, if wrath ful, is wrong;
The kind are the noble, the quiet the strong.
All things must be tempered—the wind from the sea,
And anger, whatever the quarrel may be.

For justice with mercy a monarch adorns;
No man is all error, no rose is all thorns.
And firmness with fairness, whoever offend,
Whatever the quarrel, the matter may mend.
Yes, ruling with reason, and judging, yet just,
The heart, not the mind, we may finally trust.
All things must be tempered—the truth will be seen
Not this side nor that side, but somewhere between.

(© 1931, Douglas Malloch.)—WNU Service.

Mother's Cook Book

USES OF CRANBERRIES

THE cranberry keeps better than any other berry because it has in its own composition an acid which is a preservative—salicylic acid. As this acid acts upon metals care should be taken to cook the berries in porcelain-lined or aluminum dishes—never in tin.

Fresh Cranberry Conserve.

Take two cupfuls each of cranberries put through the meat chopper, add the same amount of apples, one cupful of sugar and one-fourth cupful of pecan meats slightly broken. Let stand until the next day to season. This will keep for weeks in a cool place.

Cranberry Conserve.

Wash five pounds of carefully picked over berries, chop them coarsely. Put two pounds of seeded raisins through the food chopper, mix with the berries. Boil the thin yellow rind of four large oranges in water to cover until the rind is tender, then chop fine. Put all the ingredients into a saucepan with ten cupfuls of sugar, the pulp and juice of five large oranges. Heat slowly and cook until reduced to a jam.

Cranberry Frappe.

Boil one quart of berries (add two cupfuls of water) for ten minutes. Strain through a coarse cloth, add two cupfuls of sugar, stirring until it is well dissolved. Add the strained juice of two lemons and freeze to a mush.

Cranberry Drink.

Put one cupful of cranberries on to cook with a little water. Boil two quarts of water with three tablespoonfuls of oatmeal and the peel of half a lemon for ten minutes. Now add the strained cranberry juice and sweeten to taste, boil twenty minutes, then cool and add one cupful of orange juice, strain and serve.

Cranberry Bavarian Cream.

Whip a pint of double cream until stiff, add one cupful of sugar, one tablespoonful of gelatin which has been softened in water and liquified over hot water. Mix with the cranberries, strained and sweetened, to which four tablespoonfuls of maraschino sirup has been added. Fill the molds and pack in ice and salt for four hours.

FISH AND GAME NOTES

By J. H. NEUSTADT

Development work on the Gray Lodge migratory waterfowl refuge of the Division of Fish and Game has been started. The refuge was recently acquired by the state after a careful survey by the game refuge and public shooting grounds advisory committee. The committee consists of the director of the California Acamemy of Science, director of Hooper foundation for Medical Research of the University of California and five other members appointed by the Fish and Game Commission.

The area consists of 2,541 acres in the lower end of Butte county, near Pennington, and has a plentiful supply of water near at hand. According to Asa McLennan, field superintendent, there is already between 800 and 2,000 acres under water, and this despite the unusually dry season.

During the survey by the committee it was learned that there has been an annual kill of more thn 12,000 ducks on this property during the fall season. This shows that it is an excellent duck locality. Former owners of the property invested more than $100,000 above the purchase price to the Division, records show. These acquired improvements include buildings, a tall observation tower and freshwater tank, various canals, levee construction, miscellaneous machinery, fences, roads and numerous other assets. McLellan said these improvements would greatly simplify and speed the developements as outlined by the Division.

First on the program of work will be the construction of roads to various sections of the property. This will not only afford better patrolling facilities throughout the years, especially during the duck hunting season, but will be an essential factor in constructing additional lakes and canals. After the roads are built then the work of repairing fences and other construction work will proceed according to plans, the superintendent said.

Fish rescue crews for the Division of Fish and Game are not only saving fish in the drying streams and ponds of the state, but are also rescuing eggs of the spiny rayed variety. Thousands of blue gill eggs in Deer creek have already been saved this seansn. Through careful, skillful handling of equipment the eggs are raised to a tub of water and then rushed to the nearest live streams. Great care must be taken to insure success.

As many of the rescued varieties cannot be propagated artificially as are trout and salmon, the value of the fish saved is immeasurable. The bureau has already rescued more fish this season than they did throughout the entire last year, records show, and is attributed to the extremely dry year. Before the season is ended the rescued will number well up into the millions.

High praise is given to the volunteer workers who have assisted in the work. In some localities the sportsmen have done such good work in assisting that comparatively very few fish were lost. Due to the tremendous territory to cover, it is essential that volunteers respond for the service.

The pheasant population of the state game farm, at Yountville, operated by the Division of Fish and Game, has failed to hear any of the talk of depression, according to figures submitted this week by August Bade, superintendent. During the laying season, the ring-necked phesant hens on the game farm produced a total of 40,069 eggs, or an average of 66 eggs per hen during the period. This is 16 eggs per hen above the general average usually figured by game breeders as the season's production. A large majority of these eggs were hatched in the incubators at the game farm and young birds are now ready for distribution to many sections of the state.

One of California's most characteristic game fish species, long headed for extermination, was given a new lease on life recentlly through the activities of George Neale, head of the Bureau of Fish Rescue of the Division of Fish and Game.

Low water conditions in Lake Chabot, municipal water supply for the city of Vallejo, necessitated the rescuing of thousands of perch and black bass. When the seining operations of the fish rescue were started, it was found that Lake Chabot contained large numbers of adult Sacramento perch, the only native spiny rayed freshwater game fish in California. In addition to over 2,000 fish of this species averaging from three to four pounds in weight, 746 laremouth black bass of the same size were rescued. The fish taken from Lake Chabot were transferred to iced tanks in retaining ponds near the city of Sacramento, where they will be held until they are introduced into other waters.

The Sacramento perch has long been considered practically extinct in California waters. The nature of the spawning habits are such that it cannot exist in waters occupied by catfish or carp. The female fish deposits its eggs in long bead-like strands upon branches of submerged vegetation. Other spiny rayed species build nests in the sand and before the eggs are hatched, both parents fight off intruders from the nest. The suspended egg of the Sacramento perch makes it easy prey for rough fish in the streams.

The 2,000 adult Sacramento perch are to be introduced into two clear, cold fresh water lakes in Sacramento county especially provided for the purpose. These lakes contain no other fish life and an abundance of fish food. It is hoped that with this breeding stock, propagation methods can be carried on which will result in the rehabilitation of this species throughout the waters of this state.

The gamy habits of this species and the white, flaky meat makes it a highly desirable inhabitant of the waters of the Sacramento and San Joaquin Valley where it was once abundant.

PENINSULA PRIEST HOME AFTER TOURING IRELAND

Ireland today is the most prosperous country in the world, according to Father Thomas Dowling of Our Lady of Angels Catholic church, Burlingame, who has just returned from an extended visit to his native country. Father Dowling was accompanied home by his brother, the Rev. Laurence Dowling, who is making his first visit to America and who will spend the winter in Burlingame.

"I was much impressed with what is being accomplished in Ireland," said Father Dowling. "I find that the young republic is making rapid strides in every direction. Today the credit of Ireland is the best in the world, industry is growing and the people are peaceful and contented. There is splendid leadership in the country and the heads of the government have been able to cope with every situation."

SAN MATEO BURGLAR MUST FINISH STATE PRISON TERM

J. P. Donnelly, former San Mateo chain store manager, who was capturend by San Bruno police after sensationally escaping from a police car there the night of October 12, has been sentenced to San Quentin from San Francisco on a charge of violating his parole. He was accused of committing a series of burglaries in the bay aera.

After escaping from the San Bruno police, Donnelly went to a Millbrae service station, where he got an attendant to remove his handcuffs. When captured some time later he was lodged in the county jail at Redwood City. County authorities then charged him with burglary, but later turned him back to San Francisco police, who wanted him for parole violation.

CONTRACTORS START FIRST UNIT OF BAYSHORE JOB

Work on the grading of the Bayshore highway in the Redwood City area is under way. Men using tractors began operations at the newly constructed bridge over San Francisquito creek in East Palo Alto.

The contractors doing the job is Basich Brithers, winners of the contract for grading and paving the unit of the new road from Redwood slough to Oregon avenue. The price bid was about $406,000.

The crew doing the grading will work toward Oregon avenue from the bridge. Although the contract calls for completion of the job within 200 days, it is announced that every effort will be made to finish it as soon as possible.

RECKLESS DRIVING LANDS MENLO MAN IN BASTILE

John Rankin, Menlo Park sheet metal worker, is in the county jail following an arraignment before Justice of the Peace Edward Farrell at South San Francisco, on a charge of reckless driving. Bail was fixed at $250 cash or $500 bonds, which Rankin was unable to raise.

The Menlo Park man was arrested by State Highway Patrolman Paul Perussina on Wednesday afternoon on the Bayshore highway after his erratic driving had forced two other motorists off the highway and into the sloughs alongside the road. He was under the influence of intoxicants at the time, according to the police.

BURGLARS LOOT HOME OF REDWOOD CITY REALTOR

The home of Emmett Donnelly, 918 Blanford street, Redwood City, was robbed Wednesday night of jewels and cash amounting to several hundred dollars. Donnelly, a realty operator, said the thief forced an entrance to the house while the family was out early in the evening.

Police said they had several clues and believed the robbery to have been the work of an amateur passing through.

Jokesmiths may get some fresh raw material from the fact that the Prince of Wales has become an enthusiastic bicycle rider. Many wheezes have been written about his horsemanship, and he has perhaps been spilled oftener than any other rider. But he is a good horseman, at that, and one of the gamest who ever catapulted from a saddle.

Possibly it would also be ethical to say "a lie for a lie and a truth for a truth."

The effects of the prone pressure method depends on whether it is used by life savers or motorists.

ORDINANCE NO. 176.

AN ORDINANCE DIVIDING THE CITY OF DALY CITY INTO RESIDENCE, COMMERCIAL AND INDUSTRIAL DISTRICTS, AND GOVERNING THE LOCATION OF CERTAIN INDUSTRIES THEREIN, AND PROHIBITING THE ESTABLISHMENT OR MAINTENANCE OF CERTAIN BUSINESS OR INDUSTRIES IN SAID DISTRICTS.

The City Council of the City of Daly City do ordain as follows:

SECTION I. The City of Daly City is hereby divided into Residence, Commercial and Industrial districts as hereinafter set forth. The Residence District shall be known as Residence District number one (1); the Commercial District shall be known and designated as Commercial District number one (1); and the Industrial District shall be known and designated as Industrial District number one (1).

SECTION II. Commercial District number one (1) shall contain all that part of said city, bounded and particularly described as follows, to-wit:

Beginning at the intersection of the Westerly line of Lot 32, Block K, Map of Mission Street Land Company, filed for record July 31, 1895, in Vol. E of Maps at page 73, San Mateo County Records with the line dividing San Mateo and San Francisco Counties;

Running thence Easterly along said County line to its intersection with the Westerly line of Acton Street; thence Southerly along the Westerly line of Acton Street to the line dividing Lots 8 and 9, Map of West End Homestead Association, filed for record in Volume 4 of Deeds at page 415, San Mateo County Records; thence Westerly along the line dividing Lots 3—6 and 8 from Lots 4—5 and 9 of said West End Homestead to the Easterly line of Lot 2; thence Northerly along the Easterly line of Lot 2 to the Southerly line of Lot 1; thence Westerly along the Southerly line of Lot 1 to its intersection with the Easterly line of Block 1, Map of Crocker Estate Subdivision No. 1, recorded June 1, 1908, in Vol. 6 of Maps at page 16, San Mateo County Records; thence Northerly along said Easterly line of Block 1 to the line dividing Lots 4 and 5 of said Block; thence Westerly along the Northerly line of said Lot 5 to the Easterly line of Templeton Avenue; thence in a straight line across Templeton Avenue to a point where the Westerly line of Templeton Avenue is intersected by the median line of Block 2 of said Crocker Estate Tract; thence Westerly along the median line of Block 2, 3 and 4 of said Crocker Estate Tract to the Northeasterly line of Wellington Avenue; thence in a straight line across Wellington Avenue to the Southeasterly corner of Lot 1, Block 1, Crocker Daly Subdivision, filed for record August 11, 1913, in Volume 9 of Maps at page 4, San Mateo County Records; thence Southwesterly, Northwesterly, Southwesterly and Northwesterly along said Block 1 to the Easterly line of Hillside Boulevard, formerly San Geronimo Avenue; thence Southerly along the Easterly line of Hillside Boulevard to the Westerly line of the Visitacion Rancho; thence Southerly along said Rancho line to the Southerly boundary of the City of Daly City; thence Westerly along said Southerly boundary to the Easterly line of Mission Street; thence Southerly along the Easterly line of Mission Street to its intersection with the Easterly production of the Southerly line of Block 1, Map of Metropolis Homestead, filed for record May 4, 1914, in Volume 9 of Maps at Page 15, San Mateo County Records; thence Westerly along said Easterly production and along the Southerly line of said Block 1 to the line between Lots 11 and 12 of said Block 1; thence Northerly along the Westerly line of Lots 1 to 11 inclusive of said Block 1 to the Southerly line of Citrus Avenue; thence in a straight line to the Northeasterly corner of Citrus Avenue and Miriam Street; thence Northerly along the Easterly line of Miriam Street to the Southerly line of Westlake Avenue; thence in a straight line to a point where the Northerly line of Westlake Avenue is intersected by the line dividing Lots 1 and 15, Block 17, Vista Grande No. 1, filed for record November 5, 1906, in Volume 6 of Maps at page 35, San Mateo County Records; thence Northerly parallel to and distant 120 feet Easterly from the Easterly line of Mission Street 115.42 feet; thence at right angles Easterly 2.25 feet; thence Northerly parallel to and 122.25 feet Easterly from the Easterly line of Miriam Street 164.58 feet to the Southerly line of Lot 11, Block 17, Vista Grande No. 1; thence Easterly along said lot line to the line dividing Lots 11 and 26; thence Northerly along the Easterly line of Lots 11 to 17, Block 17, and along the Easterly line of Lot 27, Block 1, Knowles Tract, filed for record May 21, 1888, in Volume A of Maps at page 42, San Mateo County Records; and along the Easterly line of Lot 23, Block 17, Vista Grande No. 1, to the Southerly line of North Park View Avenue; thence in a straight line to the Northeasterly corner of North Park View and Santa Barbara Avenues; thence Northerly along the Easterly line of Santa Barbara Avenue to the Southerly line of Los Banos Avenue; thence in a straight line to the Northeasterly line of Los Olivos and Santa Barbara Avenues; thence Northerly along the Easterly line of Santa Barbara Avenue to the Southerly line of Hillcrest Drive; thence in a straight line to the intersection of the line between Lots 31 and 32, Block 3, Map of Hillcrest, filed for record in Volume 14 of Miscellaneous Records at page 232, San Mateo County Records, with the Northerly line of Hillcrest Drive; thence along the line dividing Lots 31 and 32 in said Block 3 to the Southerly line of Lot 38 in said Block 3; thence Easterly and Northerly along the Southerly and Easterly lines of said Lot 38 to the Southerly line of Vendome Avenue; thence Northeasterly to the intersection of the line dividing Lots 17 and 18, Block 2, Hillcrest with the Northeasterly line of Vendome Avenue; thence Northeasterly along said dividing line between Lots 17 and 18, Block 2, to the Southwesterly line of Block V, in the above mentioned Map of Mission Street Land Company; thence Northwesterly along the Southwesterly line of said Block V to the line dividing Lots 4 and 5 in said Block V; thence Northeasterly along the line between said Lots 4 and 5 to the Westerly line of Repler Street; thence in a straight line Southeasterly to the most Southerly corner of Block T of said Mission Street Land Company; thence Northeasterly along the Southeasterly line of Block T to the Southwesterly line of Shakespeare Street; thence Northeasterly in a straight line to a point in the Northeasterly line of Shakespeare Street distant 100 feet at right angles Northwesterly from the Northwesterly line of Mission Street; thence Northeasterly parallel to and distant 100 feet Northwesterly from said Northwesterly line of Mission Street to the point of beginning.

Lots 1 to 11, inclusive, in Block 1, Metropolis Homestead Tract; Lots 28, 29, 30, 31, 32, 33, 35 and 36, Block 26; Lots 34 to 66, inclusive, in Block 3, and Lots 13 to 18, inclusive, in Block 39 "Jefferson Park"; Lot 33 in Block 26, "Map No. 1 of the Lands of the Union Park Land Co."; Lots 13 to 29, inclusive, Block 27, "Map of the Edwards Subdivision"; Lots 41 and 42 in Block 1; Lots 31 and 40 in Block 2; Lots 21 and 30 in Block 3; Lot 20 in Block 4 and Lot 10 in Block 5, "School House Extension Land Association"; Lots 1, 2, 3 and 4, "Subdivision of Lot 11, Block 4, School House Extension."

SECTION III. Industrial District number one (1) shall contain all that part of said City, bounded and particularly described as follows, to-wit:

(a) BEGINNING at the intersection of the Westerly line of the right of way of the Southern Pacific Company, Valencia Street Branch, with the line dividing San Francisco and San Mateo Counties;

RUNNING thence Westerly along said County line to the Westerly boundary of the City of Daly City; thence Southerly along the Westerly boundary of the City of Daly City to the Southerly line of the Spring Valley Water Company 7.21 acre tract, thence Easterly along the Southerly line of said 7.21 acre tract to the Westerly line of the above mentioned Southern Pacific Right of Way; thence Northerly along said Westerly line to the point of beginning.

(b) BEGINNING at the intersection of the Westerly boundary line of the Visitacion Rancho with the Southerly boundary line of the City of Daly City;

Running thence from said point of beginning Northerly along the Westerly line of said Rancho to its intersection with the Easterly line of San Geronimo Avenue; thence Northerly along the Easterly line of San Geronimo Avenue to the Southwesterly line of Block 1, Crocker Daly Subdivision, Map of which was filed for record August 11, 1913, in Volume 9 of Maps at page 4, San Mateo County Records; thence Southeasterly, Northeasterly and Southeasterly along the Southeasterly line of said Block 1 to the most Westerly corner of Block 35, Crocker Estate Tract Subdivision No. 1; thence Easterly along the Southerly line of Subdivision No. 1 and No. 2 of said Crocker Estate, said Southerly line being the line dividing said subdivision and the lands of the Crocker Estate Company, and contnuing Easterly along the line dividing the lands of Crocker Estate Company and Block "A", Map of Concordia Land Co. to the Easterly boundary line of the City of Daly City, thence Southwesterly and Westerly along the Easterly and Southerly boundaries of the City of Daly City to the point of beginning.

SECTION IV. Residence District number one (1) shall contain all that part of said city, not included within the boundary of said Commercial District number one (1), or Industrial District number one (1), and in addition thereto shall include the following described territory all situate within the City of Daly City, County of San Mateo, State of California, and particularly bounded and described as follows, to-wit:

Beginning at the intersection of the Westerly extension of the Southerly line of Thiers Street with the Easterly line of El Camino Real or Main County Road; running thence Southerly along the said Easterly line of said El Camino Real to a point where the same is intersected by the Easterly extension of the Southerly line of Vale Street, as said Vale Street is shown on that certain map entitled "School House Extension Land Association", filed for record January 12, 1872, in Volume 1 of Maps at page 15, San Mateo County Records; thence Westerly along said Southerly line of Vale Street to the Easterly line of the Southern Pacific Railway Company's Valencia Street Branch; thence Northerly along said Easterly right of way line to the Northwest corner of the Jefferson Union High School District 20.124 acre tract; thence Easterly along the Northerly boundary line of said Jefferson Union High School District Tract to a point where the same is intersected by the median line of Block 5, as said Block 5 is shown on that certain map entitled, "Metropolis Homestead Tract", filed for record March 4, 1914, in Book 9 of Original Maps at page 15, San Mateo County Records; thence Northerly along the median line of said Block 5 to the Northeast corner of Lot 15 of said Block 5; thence Westerly along the Northerly line of said Lot 15 of said Block 5 and continuing Westerly on the same line across Ocean Street as said Ocean Street is shown on said mentioned map to the Northeast corner of Lot 2, Block 6, also as shown on said map; thence continuing Westerly along the Northerly line of said Lot 2, Block 6, to the Northwest corner thereof; thence Northerly along the Westerly line of Lot 8 of said Block 6 of said map, and its extension Northerly to the center line of Citrus Avenue as shown on last mentioned map; thence Easterly along the center line of Citrus Avenue and its extension Easterly to the Easterly line of El Camino Real; thence Southerly along the Easterly line of El Camino Real to the point of beginning.

SECTION V. In Residence District number one (1) no building or premises shall be erected, constructed or altered which shall be used for or designed or intended to be used for any purpose other than those for a family dwelling, a community club house, a fire house, a flat, tenement house apartment house, boarding house, lodging house, hotel, library, public building, church, police station, or for the usual accessories to the buildings above mentioned including a garage or group of garages for not more than two automobiles for each family or institution served.

SECTION VI. In Commercial District number one (1) no building, structure, or premises shall be erected, constructed or altered which shall be designed, constructed or used for any purpose other than those specified in Section five hereof, or for one or more of the businesses or uses common and usual in the retail commercial section of a city including particularly such businesses as either of the following: Retail or wholesale merchandise or other store, bank, building and loan, post-office, water, heat, light, telephone or telegraph office, business office, personal or professional service, printing, publishing, theatre, shoe shop, automobile, or bicycle or other repair shop, plumber, painter, builder, contractor, bakery, barber shop, restaurant, and including also any business or use of a similar character.

Public service garages and gasoline stations may be established in such district under permits granted by the City Council.

SECTION VII. In Industrial District number one (1) all uses permitted in Commercial District number one (1) shall be permitted, and in addition thereto any industry may be permitted other than those hereinafter mentioned as follows, to-wit: Stone crusher, rolling mill, boiler works, fire-works factory, soap factory, glue factory, fertilizer manufacturer, incineration or reduction of garbage, offal, dead animals or refuse, smelting of iron, stock yards, abbatoir.

SECTION VIII. INTERPRETATION. —PURPOSE. In interpreting and applying the provisions of this ordinance they shall be held to be the minimum requirements adopted for the promotion of the public health, safety, comfort, convenience and general welfare. It is not intended by this ordinance to repeal, abrogate, annul or in any way impair or interfere with any existing provision of law or ordinance or any rules, regulations or permits previously adopted or issued or which shall be adopted or issued pursuant to the law relating to the use of buildings or premises, nor is it intended by this ordinance to interfere with or abrogate or annul any easement, covenant or other agreement between parties; provided, however, that where this ordinance imposes a greater restriction upon the use of buildings or premises than is imposed or required by such existing provisions of law or ordinance or by such rules, regulations or permits or by such easements, covenants or agreements, the provisions of this ordinance shall control.

SECTION IX. UNLAWFUL USE.—CERTIFICATE OF OCCUPANCY. It shall be unlawful to use or permit the use of any building or premises or part thereof hereafter constructed, erected, changed or converted wholly or in part in its use or structure until a certificate of occupancy to the effect that the building or premises or the part thereof so constructed, erected, changed or converted and the proposed use thereof conform to the provisions of this ordinance shall have been issued by the Chief Building Inspector. In the case of such buildings or premises it shall be the duty of the Chief Building Inspector to issue a certificate of occupancy within ten days after a request for the same shall be filed in his office by the owner of a building or premises or the part thereof, so constructed, erected, changed or converted, and the proposed use thereof, conforms with all the requirements herein set forth. A temporary certificate of occupancy for a part of a building may be issued by the Chief Building Inspector. Upon written request from the owner, the Chief Building Inspector shall issue a certificate of occupancy for any building or premises existing at the time of the passage of this ordinance certifying after inspection the use of the building or premises and whether such use conforms to the provisions of this ordinance.

SECTION X. ENFORCEMENT, LEGAL PROCEDURE, PENALTIES. Any person, firm or corporation violating any provisions of this ordinance shall be guilty of a misdemeanor, and upon conviction thereof shall be punishable by a fine of not more than Three Hundred ($300.00) Dollars, or by imprisonment for a term of not exceeding three (3) months, or by both such fine and imprisonment. Such person, firm or corporation shall be deemed guilty of a separate offense for each and every day during any portion of which any violation of this ordinance is committed, continued or permitted by such person, firm or corporation, and shall be punishable as herein provided.

SECTION XI. BUILDING PERMITS. No building permit shall be issued for the erection or alteration of any building or structure contrary to the provisions of this ordinance. Each application for a building permit shall be accompanied by a statement as to the use of the building to be constructed or altered. On each application there shall be shown an accurate block plan of the location of the building on the lot drawn to a scale of 16 feet to 1 inch.

SECTION XII. The City Council of the City of Daly City may as hereinafter provided from time to time, after public hearings held, in accordance with that certain act of the Legislature of the State of California entitled, "An act to provide for the establishment within municipalities of districts and zones within which the use of property, height of improvements and required open spaces for light and ventilation of such buildings may be regulated by ordinance", approved May 31, 1917, amend this ordinance and/or any one or more sections of the same. An amendment of this ordinance and/or any one or more sections of the same may be initiated by said City Council, of its own motion, or by petition of any property owner whose property is subject to this ordinance.

SECTION XIII. If any section, subsection, sentence, clause or phrase of this ordinance is for any reason held to be invalid or unconstitutional by the decision of any Court of competent jurisdiction, such decision shall not affect the validity of the remaining portions of the ordinance. The City Council of the City of Daly City hereby declares that it would have passed this ordinance and each section, sub-section, sentence, clause and phrase thereof irrespective of the fact that any one or more of the sections, sub-sections, sentences, clauses or phrases thereof be declared invalid or unconstitutional.

SECTION XIV. This ordinance shall be published once in the Daly City Record, a newspaper published in said city, and shall be effective thirty (30) days after the passage thereof.

Introduced: October 13, 1931.

Passed and adopted as an ordinance of the City of Daly City at a regular meeting of the City Council of said city, held October 26, 1931, by the following vote, to-wit:

AYES, and in favor thereof, Councilmen: Bodien, Twesten, Sundermann, Smith.

NOES, Councilmen: None.

ABSENT, Councilmen: Dalton.

H. H. SMITH,
Mayor of said City of Daly City.

ATTEST:
B. C. ROSS,
City Clerk of said City of Daly City.

ORDINANCE NO. 175.

AN ORDINANCE REGULATING THE HEIGHT OF FENCES AND HEDGES AND PROVIDING PENALTIES FOR THE VIOLATION THEREOF.

The City Council of the City of Daly City do ordain as follows:

SECTION 1. No person, firm or corporation shall construct or maintain or permit to be constructed or maintained any fence or hedge or structure or growth of like nature within residential districts as they are now and may hereafter be prescribed in the City of Daly City without obtaining a permit so to do from the City Council of a greater height than three (3) feet when adjacent to and within twenty-five (25) feet of the property line of a street intersection line, and otherwise of a greater height than six (6) feet.

SECTION 2. No permit to construct or maintain any such fence or hedge or structure or growth of like nature shall be issued by said City Council unless the applicant therefor shall file with the City Clerk an application in writing which shall contain the applicant's name and address, a description of the property upon which he proposes to construct or maintain same, a statement of the nature of his ownership or interest therein, together with thereto attached, a diagram or plat of said property and any property abutting said fence or hedge, together with the written consent of the owners and occupants of said abutting property, and a statement of the nature of their said ownership or possession.

SECTION 3. The City Clerk shall endorse said application filed on the date he receives same, dating it, and shall forthwith refer it to the Building Inspector, who shall investigate the same and issue a permit for the erection of said fence and/or hedge, if in his judgment the terms of this ordinance are complied with.

SECTION 4. Any person, firm or corporation violating any provision of this ordinance shall be guilty of a misdemeanor, and upon conviction thereof shall be punished by a fine of not exceeding One Hundred ($100.00) Dollars, or by imprisonment in the City Jail for not exceeding thirty (30) days, or by both such fine and imprisonment.

SECTION 5. This ordinance shall be published once in the Daly City Record, and shall take effect thirty (30) days after the date of its adoption.

Introduced this 28th day of September, 1931.

Passed and adopted as an ordinance of the City of Daly City the 13th day of October, 1931, by the following vote:

AYES, and in favor thereof, Councilmen: Bodien, Dalton, Twesten, Smith.

NOES, Councilmen: None.

ABSENT, Councilmen: Sundermann.

H. H. SMITH,
Mayor of the City of Daly City.

ATTEST:
B. C. ROSS,
City Clerk of the City of Daly City.

In his efforts to destroy evidence of passing counterfit $5 bills, Ricardo Garcia of Havana, Cuba, swallowed two bills just as policemen began to search his clothing.

While an inquest was being held on a body identified as that of Charles Brown of Chacago, Brown appeared and asked why the inquest was being held.

After a courtship lasting for more than 40 years, Miss Julia Stimers, of Staten Island, N. Y., was married to Walter Burbrow.

Lucine Laughter was sentenced to 11 months 29 days in the workhouse in Memphis, charged with manufacturing whisky.

Mice completely destroyed $250 in bills which Phillip Bondreau of Halifax, Nova Scotia, had hid in an old oak chest safe keeping.

A motorcycle exploded and did no damage except to permanently wreck itself. Perfect! Let us have more explosions like that.

The array of talent that has been enlisted to try to find a way out indicates that Americans are taking their depression seriously.

DALY CITY

NEWS NOTES OF PERSONAL INTEREST

Dr. and Mrs. F. P. Callsen, of Santa Barbara avenue, entertained a group of friends Hallowe'en night.

A rummage sale will be held by the ladies of the Congregational church in Ocean View this Friday and Saturday.

Raymond Doering, of Chicago, spent last week visiting with his mother, Mrs. M. Doering, of Wellington avenue.

Mr. and Mrs. W. D. Cooke and son Jack, of Frankfort street, were dinner guests at the home of friends in Oakland last Monday.

Leo Guisti, of Parkview avenue, popular accordion player, was very busy during the past week, playing for the Rossi rallies.

Mr. Hans Evans, of Winchester street, is confined to his home, suffering from a badly sprained ankle which he received last Sunday in his home.

Miss Dorothy Poland, of Victoria, made a visit to Mrs. P. Dormoy, of Mission Circle, recently. Miss Poland was Mrs. Dormoy's nurse during her illness last June.

Mrs. Frank Rose, of San Francisco, was a luncheon guest at the home of Mrs. A. Crooker last Tuesday.

Mr. and Mrs. Romani, of Irvington street, entertained a large gathering of friends at their home last Saturday evening.

Mrs. Muriel Brindle, of Oakland, spent last week end visiting with her parent, Mr. and Mrs. Jules A. Ny, of Risel street.

Mrs. G. Katch and daughter Katherine, of Winchester street, attended a costume party at the Y. W. C. A. last Saturday afternoon.

Mrs. Lawrence Rusting and baby daughter Jean Frances, returned to the family home on Hanover street from Mt. Zion hospital last Sunday.

Mr. P. Dormoy, of Mission Circle, has fully recovered from a recent operation performed at St. Joseph's hospital, and is back at work again.

Junior Warner, son of Mr. and Mrs. Justin Warner, of Risel street, has been confined to his bed for the past week, seriously ill, suffering from an attack of acute appendicitis.

Gus Ford, of Parkview avenue, who has been ill for the past week, returned to his work yesterday morning.

The Crocker Parent-Teachers' Association will hold their regular monthly meeting at 12 Wellington avenue, Tuesday afternoon, November 10, at 2 o'clock.

Mrs. Claude Hichens, of Thirty-second avenue, entertained Mrs. Eva Page, of San Diego avenue, and Mrs. Marjorie Woodside, of Woodrow street, at luncheon last Wednesday.

Don't forget the turkey whist at the Eagles' Hall, on November 10, sponsored by the Royal Neighbors of Vista Grande Camp. Game will start at 8:30 o'clock sharp. All welcome.

Mr. and Mrs. J. E. Walker and daughter Evelyn, of Frankfort street, motored to Palo Alto last Sunday and spent a delightful day there. They were accompanied by Mr. Jones, of Parkview avenue.

Mrs. P. S. White, of Irvington street, returned home from St. Luke's hospital last Sunday and is convalescing at her home from injuries she suffered when she fell down the stairs in her home two weeks ago.

Friday night of last week Roelof Pauw, of Hanover street, attended a Hallowe'en party given by the Community Musical School in San Francisco, where he was one of the members on the reception committee.

Mr. and Mrs. C. J. Pauw and daughter Corinne, of Hanover street, attended the Hallowe'en party given by the First Methodist church at Twenty-fourth and Broadway, Oakland, Thursday evening of last week.

Thursday of last week Mrs. J. D. Eason, of Hanover street, entertained a group of friends at luncheon. The guests included Mr. and Mrs. E. Byrne, Mrs. J. Caine, Mrs. L. Davis and daughter Beverly and Mrs. Ethel Bolger.

Mr. and Mrs. David Adams, of Petaluma, formerly of Risel street, were week end guests at the home of Mr. and Mrs. J. Swan, of Peoria street. Last Saturday they visited with some of their former neighbors on Risel street.

The Woodrow Wilson-Vista Grande Parent-Teachers' Association will hold a pillow case whist on November 17, at the Crocker club rooms. The sewing club has prepared a number of beautiful pillow cases. You are invited to help make this affair a success.

The Home Service deptrment of the Woodrow Wilson P. T. A. met at the home of Mrs. Anna Owen, 350 Woodrow street, on Thursday. The sewing for the pillow-case whist is progressing nicely. All who have cases are urged to bring them, finished, to the November 17 meeting.

Last Saturday afternoon the members of the Well Baby Clinic board were the guests of Mrs. E. Lohr, in the St. Francis, for an afternoon tea at 3:45 o'clock. The following members were present: Mrs. M. Woodside, Mrs. Maynard Chesney, Mrs. Eva Page, Mrs. Orvilla D. Pauw, Dr. Heldegrade Henderson, Mrs. Julia Jordan and Mrs. Ethel Bolger.

A group of children from Mrs. G. Carl's class and from Mrs. M. Clark's class entertained the members of the General Pershing P. T. A. and Miss Pansy Abbott, county superintendent of schools, and R. L. Crane, district superintendent of schools, last Tuesday afternoon, with clever recitations. The teachers deserve much credit for the time they spent coaching the little ones.

On Friday, November 6, the members of Crocker Parent-Teachers' Association will hold a food sale and luncheon at 12 Wellington avenue, from 11 o'clock until 2. A regular luncheon will be served and also waffles and coffee. The waffles and cofee will be 15 cents. Come and buy your dinner all ready to serve. Delicious and home cooked. The proceeds of the sale will be used to further child welfare projects.

Mr. and Mrs. Norton Townsend, of Oliver street, entertained a large number of guests last Saturday night at a Hallowe'en celebration. The home and basement were tastefully decorated in Hallowe'en colors. During the evening dancing, games and community singing was enjoyed by the guests. Mrs. Baird entertained the group with several Scotch songs, which were greatly appreciated by all. At a late hour the hostess served a delicious buffet supper and plenty of lemonade and soda water. At 3 o'clock the guests departed, singing "Auld Lang Syne."

Misses Pauline Smith and Evelyn Walker, of Frankfort street, entertained a group of friends at a Hallowe'en party in the Smith home last Friday evening. The basement was artistically decorated, witches, goblins, black cats and pumpkins being very much in evidence. All of the guests came in costume. At a late hour the guests enjoyed an indoor wenie roast and home made pumpkin pie. The guests included Corinne Pauw, Lenore Adams, Jane Reiman, Marjorie Stewart, Marion Marine, James Hawthorne, Jack Grantham and Jack Adams.

James and Billy Baumoeller, of Santa Barbara avenue, returned to their home last Sunday from the San Mateo Preventorium. They are very gladly greeting their many friends.

A. M. Harrison, of Woodrow street, local plumber, has been confined to his home for the past week, suffering from an attack of flu, but at present is able to be up and around again.

The sixth annual turkey whist to be given by the Veteran Firemen's Association of Daly City will be held on Friday evening, November 20, at the Daly City auditorium. The Veteran Firemen invite all their friends to attend this party.

The Ladies' Auxiliary, American Legion Post No. 410, will hold their first meeting of the new year on November 6. Mrs. Jordan, the president, urges all members to attend this meeting. The Auxiliary is holding a state-wide drive for membership and for renewal of membership. The districts are offering rewards for the units that reach the quota first. You are invited to come and help make this the Auxiliary's biggest year.

Last Sunday, after the St. Marys-Santa Clara game, Mrs. Helena O'Connor entertained at a delicious turkey-duck dinner at her home. After dinner the evening was spent in playing cards. Those enjoying Mr. O'Connor's hospitality were Mr. and Mrs. John O'Connor, of Oakland; Mr. and Mrs. Ed Sullivan, of San Francisco; Mr. Kay Sorenson, of San Francisco; Mr. and Mrs. Bob Wall, Mr. Jerry Sullivan and Misses Marge and Tessie O'Connor.

Don't forget the turkey whist party and dance that is being sponsored by members of El Carmelo Parlor drill team, No. 181, N. D. G. W., on Wednesday evening, November 18, at the Masonic Hall, Daly City. The committee of young ladies, headed by Miss Collista Dalton, are working very hard to make this affair a success. Part of the proceeds are to go for the annual Christmas tree party, so you are invited to come and help a good cause along.

Miss Rita Sadler, daughter of Mr. and Mrs. A. W. Sadler, of Risel street, entertained a group of friends last Friday in celebration of Hallowe'en eve. The home was prettily decorated with paper pumpkins, goblins, black cats and witches. A most enjoyable evening was passed in playing indoor games. At a late hour delicious refreshments were enjoyed by the many guests. The guests included: Betty Hart, Ethel Miller, Elaine Wadiker, Louise Savelly, Jean Carson, Billy Hart, Billy Smith, Edward Stevens, Harold Fields, Harold Schioldager and Alvin Wright.

Miss Hazel Liljeberg, of Irvington street, was hostess last Saturday night to a group of schoolmates who were full of the spirit of Hallowe'en mischief and fun. The girls all wore bright colored pajamas. The basement of the home was decorated in Hallowe'en colors. The guests played indoor games and also enjoyed an evening of dancing. At 10:30 a delicious dinner was served to the following guests: Elinor and Thora Anderson, May Swan, Plebe Sardi, Margaret Continola, Louise Nettle, and Louise Kraup; Phil Gibbons, Grover Martin, Eugene Siler, Eugene Capps, Robert Smith and Marvin Slessinger.

FATHERS TO HAVE NIGHT AT LONGFELLOW P. T. A.

"Fathers' Night" at the Longfellow P. T. A. unit will be held Thursday, November 12, in the school auditorium at 7:30 P. M. Mr. Joseph A. Garry, state chairman of Fathers' Councils, Officer Byron Getchell of the San Francisco police department, and Mrs. George Simpers, first vice-president of the Second district, will be the speakers.

A program by the school children stressing "American Education Week" will be featured. Selections by the school orchestra and the Boy Scout band of Troop 89 will be part of the program. Also the Singing Mothers of the Longellow unit will sing, under the direction of Mrs. Loma Walker. Mrs. W. J. Hunter will preside.

VICTIM OF HEART ATTACK

George Durrous, of Oliver street, passed away last Sunday, a victim of heart trouble. Mr. Durrous had been ill several months. He leaves a beloved wife, Alida, to mourn his early passing. The funeral was conducted from the mortuary chapel of W. C. Lasswell & Co., thence to Our Lady of Perpetual Help church, last Wednesday morning, where a requiem high mass was celebrated for the repose or his soul, commencing at 9 o'clock. Interment was in Holy Cross cemetery.

Big Armistice Dance November 10

Do you remember November 11, 1918? "Where do we go from here, boys; where do we go from here?" Why, up to the dance, of course, to dance with the Auxiliary girls. That big dance to be given by Daly City Unit No. 410, American Legion Auxiliary, on November 10, 1931, at the City Hall. Be sure you come and help celebrate this memorable date. There is going to be lots of pep and lots of fun. Johnny Dell's orchestra will furnish the music. Tickets may be purchased from any Auxiliary member, or at the door. Don't forget the date, Tuesday evening, November 10.

ANNOUNCE SERMON TOPICS FOR MONTH OF NOVEMBER

The pastor of the Daly City Methodist Community church announces the following sermon topics during the month of November:

November 8.—"Jesus' Message to the Misdirected Man." Most of the foolish people in the world would be wise if they only knew how to use Life's Blue Book. This is Armistice day. It is also Good Literature Sunday.

November 15.—"The Message of Jesus to the Lonesome Man." Paradoxical as it may seem, when we are alone we are not alone. We have conscious intimacy with a great Companion and sympathetic Friend.

November 22.—"The Gratitude of a Hungry Man." What would and does Jesus have to say to hungry men on this Thanksgiving day? "If a son shall ask for a loaf will he give him a stone?" If Jesus could and did feed the hungry multitude as recorded, can and will He feed them today?

November 29.—"The Handicapped Man Made Happy." There is a way out for the underprivileged man in these days. He may be successful and happy. Motives are more important than money, as right is more important than might.

MRS. WALL ENTERTAINS LA FIESTA CLUB MEMBERS

Thursday evening of last week the members of La Fiesta Club had a most enjoyable time at the home of Mrs. Lorraine Wall, of Bellevue avenue. Mrs. Wall was assisted in entertaining by Misses Audrey Diamond and Nonie Healey. After the regular business meeting, the members adjourned to the dining room, where a delicious old fashioned turkey dinner, prepared by Mrs. Wall, was the surprise of the evening, being enjoyed very much by all.

Those having a most enjoyable time were: Roberta Heagney, Tessie O'Connor, Edna Boyle, Elsie Fahey, Louise Clemens, Audrey Diamond, Eleanor Boyle, Christine Hume, Sylvia Fischer, Frances Smith, Annette Drury, Marge Kennedy, Mabel Lorenz, Marge O'Connor, Ruth Kelley, Grace Kelley, Callista Dalton, and Lorraine Wall.

ENTERTAINS SEWING CIRCLE

Last Monday the members of the Crocker Parent-Teachers' Association attended the Sewing Circle meeting held at the home of Mrs. J. E. Walker of Frankfort street. Delicious refreshments were served by the hostess, who was assisted by her daughter, Mrs. Tomisen. The members present included Mrs. G. Katch, Mrs. Orvilla D. Pauw, Mrs. J. Jordan, Mrs. E. Barrett, Mrs. E. Bolger and Mrs. W. E. Cooke.

BIRTHDAY LUNCHEON

Mrs. I. Roberts, of Winchester street, celebrated her birthday on Thursday of last week at a delightful luncheon at her home, to which a number of guests were bidden. The hostess received many lovely and useful gifts. The guests included Mrs. P. Schneider, Mrs. E. Crowley, Mrs. B. Wilson, Mrs. W. Skov, Mrs. Stranger, of San Francisco, Mrs. J. Newton, Mrs. H. Shade, Mrs. Frank Carpenter, Mrs. R. Carpenter.

SPLINTERS

From the H. H. Smith Lumber Yard

VOLUME 4 FRIDAY, NOVEMBER 6, 1931 NUMBER 15

Published in the interests of the People of Daly City and vicinity by H. H. Smith and Employees.

The "House" is merely the shell—while the "Home" is the birthplace of our individual ideals—the foundation of good citizenship — the greatest of character builders.

Billie: "Say, maw, how much am I worth?"

Mother: "Why you are worth a million to me, my dear boy."

Billie: "Well, then, could you advance me a quarter?"

MacDonald: "That's a poor blade you've got on your safety razor, Sandy."

MacTavish: "Well, it was good enough for my father and it's good enough for me."

Lump Coal for fireplace and furnace.

Indignant One: "Why don't you put Wet Paint on the bench?"

Painter: "I did."

Teacher: "Edward, why do ducks and geese fly north in the springtime?"

Edward: "Because it is too far for them to walk."

Bass-Heuter High Grade Enamel.

Years of Observation—have brought us to the conclusion that the only reason a great many American families don't own an elephant is that no one has ever offered elephants for a dollar down and easy monthly payments.

A roadside notice posted in New Hampshire: "By order of the selectmen, cows grazing by the roadside or riding bicycles on the sidewalk is hereby forbidden."

"Things that a fellow thinks do not amount to a darn sometimes piles up a mountain of trouble. Just the other night my wife was working a cross-word puzzle, and she looked up and said: 'What's a female sheep?' And I said 'ewe,' and then there was another big war on."

S. O. S.
See Our Stuff.

Teacher: "Johnny, can you tell me what a waffle is?"

Johnny: "Yes'm, it's a pancake with a non-skid tread."
